Introduction to UAB

Vision

UAB's vision is to be an internationally renowned research university — a first choice for education and health care.

Mission

UAB's mission is to be a research university and academic health center that discovers, teaches and applies knowledge for the intellectual, cultural, social and economic benefit of Birmingham, the state and beyond.

The University of Alabama at Birmingham (UAB) became an autonomous campus within The University of Alabama System in 1969 and, in the four decades since, has grown into a world-renowned research university and medical center, occupying 86 city blocks in Alabama's largest metropolitan area.

UAB is the state's largest single-site employer with more than 23,000 employees. The university has seen record overall enrollment for five consecutive years, with 18,568 students in fall 2013. As part of that record enrollment, UAB had its largest freshman class ever (1,773), two-thirds of whom live on campus (also a record). Average ACT rose to 25.0 while diversity continued to grow—freshmen are 37% minority and 60% female, and UAB continues to rank among the most diverse campuses nationally in *The Princeton Review*.

UAB attracted more than \$454 million in research funding in FY2012 and currently ranks 31st nationally in federal research funding and 21st in funding from the National Institutes of Health. Researchers and physicians continue serving in top national posts in recent years, including

presidency of the American Cancer Society, the American Heart Association, the National Society for Gynecologic Cancer, and the American Society of Transplantation. In the *Performance Ranking of Scientific Papers for World Universities*, UAB ranks 31st in clinical medicine and 74th in life sciences.

UAB Hospital is the largest hospital in Alabama (and 3rd largest public hospital in the U.S.), housing the state's only level 1 adult trauma center and a world Comprehensive Transplant Institute. UAB Health System treats more than a million patients annually.

The information included in this introduction (pages 2-9) does not include data related to component units of UAB that are discussed in the notes to the financial statements.

2013 Overview

As a globally respected academic medical center, UAB excels at translating research into leading-edge patient care. UAB Hospital is the only hospital in the state to be listed in every issue (24 straight years) of *U.S. News & World Report's* "America's Best Hospitals," which recognizes only three percent of hospitals nationwide, and ranks first locally for patient satisfaction in HHS surveys.

UAB's Comprehensive Cancer Center, among the first eight such centers to be designated by the National Cancer Institute (NCI) in the early 1970s, remains the only one in Alabama and a six-state region. The Center took a quantum leap recently with the renovation of the Wallace Tumor Institute, which will greatly accelerate research and care with an Advanced Imaging

Facility and the most powerful cyclotron at any U.S. academic medical center.

Students are active participants in a robust research enterprise beginning in their freshman year. UAB now offers new undergraduate programs in biomedical sciences and public health, the BS in Neuroscience is being expanded, and a new BS in Informatics is being developed.

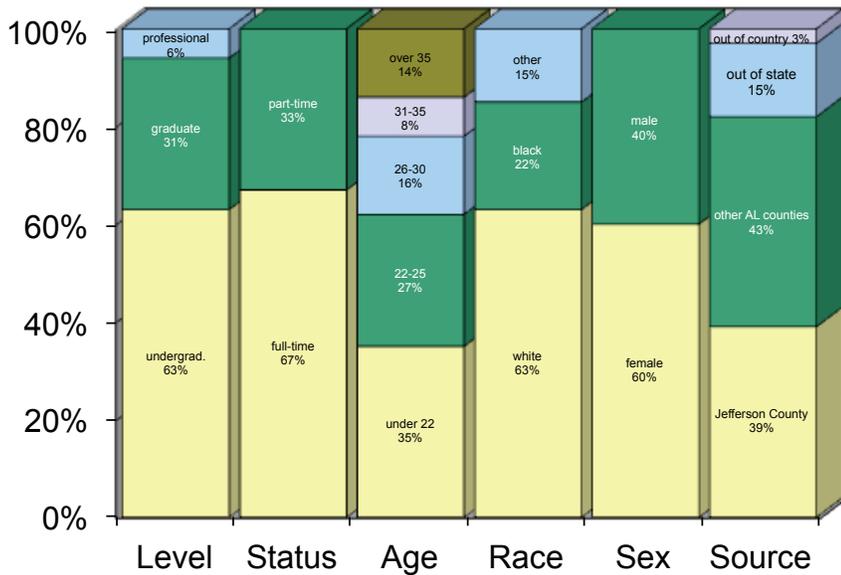

Graduate programs also continue to garner national recognition. In the latest *U.S. News & World Report* "Best Graduate Schools" issue, UAB has 11 programs in the top 25 and five in the top 10, including its master's in health administration that ranks fifth in the nation.

The Scientist online magazine ranks UAB first nationally among public universities in its "Best Places to Work as a Postdoctoral Fellow."

Students continue to earn prestigious national honors and scholarships: In 2012-2013, UAB students won, among other awards, five United Negro College Fund/Merck Research Scholarships (of only 30 awarded nationally); four Goldwater Scholarships; three William Jefferson Clinton Scholarships; and a National Science Foundation Graduate Fellowship.

UAB has an economic impact on Alabama that exceeds \$5 billion annually and supports more than 61,000 jobs state-wide—that's one of every 33 jobs. For every dollar invested by the state, UAB returns \$20. The Innovation Depot, in which UAB is a founding partner, is the largest business incubator in the Southeast, with 92 start-up companies and a \$1 billion economic impact over the past four years.

State Appropriations

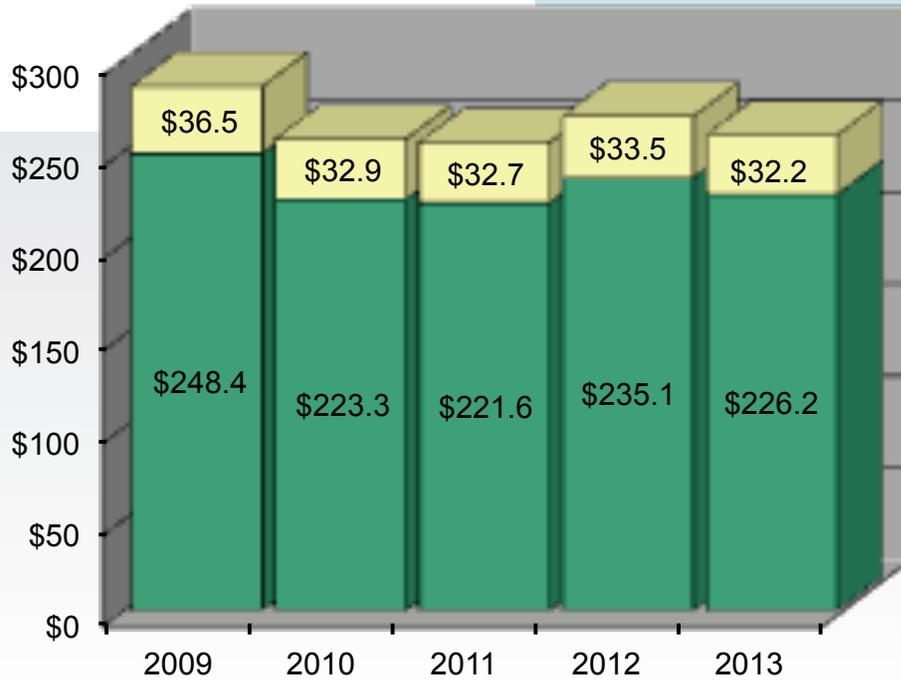

The State appropriations for UAB are made by the Alabama State Legislature based upon a process which involves requests from the Board of Trustees of The University of Alabama, and budget recommendations by the Alabama Commission on Higher Education and the Governor. State funds are appropriated annually from the Educational Trust Fund (ETF) to UAB. For the fiscal year ended September 30, 2013, UAB received direct funding from the ETF in the amount of \$258,429,840.

Appropriations Received

Fiscal years ended September 30

(Dollars in millions)

■ University ■ Hospital

Sponsored Grants and Contracts

During fiscal year 2013, UAB received \$399.5 million in sponsored grants and contracts revenues (including \$76.3 million of indirect cost recovery). Various federal agencies provided the majority of support for these projects, with the National Institutes of Health (NIH) being the primary sponsor. Nonfederal funding sources include state agencies, local governmental agencies, and a wide variety of private sponsors.

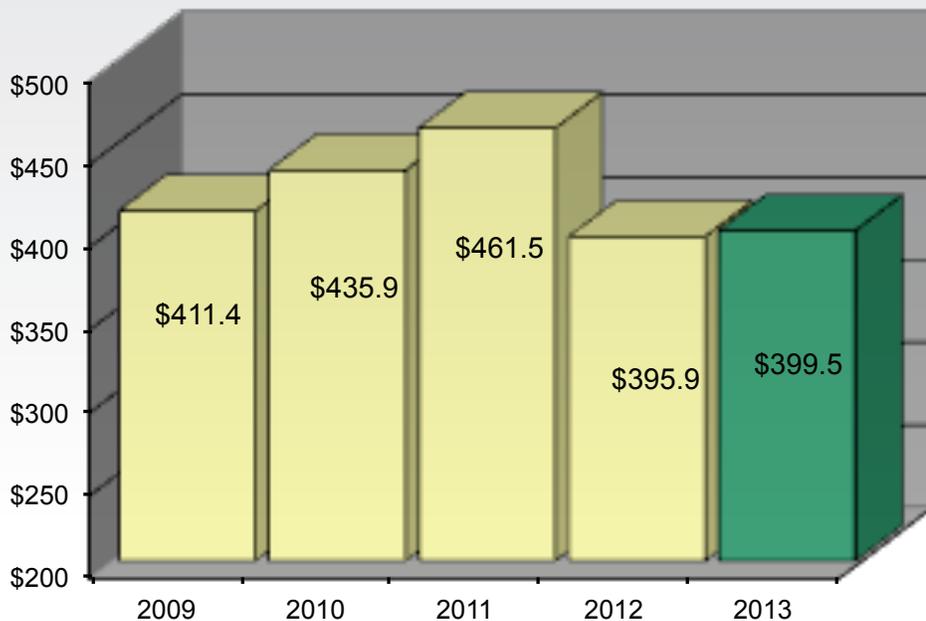

Revenues from grants and contracts (including indirect cost recovery) increased from \$395.9 million

during 2012 to \$399.5 million during 2013, an increase of 0.9% for the period. Revenues from grants and contracts were higher in fiscal years 2011 and 2010 due to federal funding received under the American Recovery and Reinvestment Act (ARRA). UAB received approximately \$26.8 million and \$22.5 million in ARRA funds during the years ending September 30, 2011 and 2010, respectively. These funds dropped to approximately \$500,000 and then to zero for the years ending September 30, 2012 and 2013, respectively.

Grants and Contracts Revenues

Fiscal years ended September 30

(Dollars in millions)

Hospital

The University of Alabama Hospital (the “Hospital”) is a 1,157-bed quaternary and tertiary care medical facility and part of the UAB Health System. The Hospital includes North Pavilion, Women and Infant Center, Jefferson Tower, Hillman Building, Spain Wallace Building, Quarterback Tower, North Wing, Spain Rehabilitation Center, West Pavilion, Russell Ambulatory Center, Medical Education Building, Highlands and the Center for Psychiatric Medicine. Other clinical facilities in the UAB Academic Health Center include Smolian Psychiatric Clinic, Engel Psychiatric Day Treatment Center, Lurleen B. Wallace Tumor Institute, and the 1917 Clinic. The Hospital also has strong ties with other governmental and private nonprofit institutions located within and adjacent to the UAB campus, including Veterans Affairs Medical Center and Children’s Hospital. Other healthcare facilities in the UAB Health System include The Kirklin Clinic, the Callahan Eye Hospital, Medical West and Baptist Health (located in Montgomery, Alabama).

Hospital Awards and Accolades

Three UAB Medicine specialties are among the nation’s top 50 in the 16 categories evaluated at 5,000 U.S. hospitals this year by U.S. News and World Report. The rankings appear in the 2013-14 annual “America’s Best Hospitals” special edition issue. In the 2013 annual peer review survey, 323 UAB Medicine physicians in 65 specialties were listed as “Best Doctors” in America. UAB Hospital received the 2013 Women’s Choice Award, ranking among America’s best hospital’s for patient experience. In fiscal year 2012, UAB Hospital has been granted recognition as a Magnet hospital for the third time from the American Nurses Credentialing Center, signifying the hospital’s place in an elite group of fewer than 400 hospitals around the world acknowledged as centers for nursing excellence. UAB Hospital was the first hospital in Alabama to earn Magnet status. In July 2012, the Hospital underwent its triennial survey by the Joint Commission. The Hospital was granted full accreditation for another three years.

Operations

The Hospital has continued to experience strong growth from operations in fiscal year 2013. Inpatient discharges increased 2.2% with an increase in adjusted patient discharges of 4.6%. Emergency room visits increased 10.2% during fiscal year 2013. As a result of volume increases, as well as contract improvements and ongoing revenue cycle improvements, patient service revenue net of allowances for contractual discounts, charity care and bad debt expense, increased \$83 million or 7.9% in fiscal year 2013. The Hospital had an increase in net assets of \$88 million in fiscal year 2013.

Selected Hospital operating statistics are outlined below:

	2013	2012
Beds in service	1,157	1,157
Patient discharges	49,149	48,090
Adjusted patient discharges	71,339	68,205
Patient days	339,940	317,534
Adjusted patient days	493,974	450,422
Operating room cases	30,586	32,605
Emergency department visits	91,962	83,467
Patient origin:		
Jefferson County	48.3%	46.5%
Other Alabama counties	45.7%	47.3%
Out of state	6.0%	6.2%

Management's Responsibility for Financial Reporting

The accompanying financial statements of the University of Alabama at Birmingham (UAB) for the years ended September 30, 2013 and 2012, were prepared by UAB's management in conformity with accounting principles generally accepted in the United States of America.

The management of UAB is responsible for the integrity and objectivity of these financial statements, which are presented on the accrual basis of accounting and, accordingly, include some amounts based upon judgment. Other financial information in the annual report is consistent with that in the financial statements. The system of internal accounting controls is designed to help ensure that the financial reports and the books of account properly reflect the transactions of the institution, in accordance with established policies and procedures as implemented by qualified personnel.

The Board of Trustees of The University of Alabama, through its Audit and Finance Committees, monitors the financial and accounting operations of the institution, including the review and discussion of periodic financial statements and the evaluation and adoption of budgets. The Board of Trustees of The University of Alabama, through its Audit Committee, monitors the basis of engagement and reporting of independent auditors.

Richard L. Margison
Vice President for Financial Affairs
and Administration

Tricia Raczynski
UAB Chief Financial Officer

Independent Auditor's Report

To the Board of Trustees of The University of Alabama:

We have audited the accompanying financial statements of The University of Alabama at Birmingham ("UAB"), a campus of The University of Alabama at Birmingham ("UAB"), a campus of The University of Alabama System, which is a component unit of the State of Alabama, as of and for the years ended September 30, 2013 and 2012, and the related notes to the financial statements, which consist of the statements of net position and the related statements of revenues, expenses, and changes in net position and cash flows of UAB and the statements of net position and of revenues, expenses and changes in net position of the Southern Research Institute ("SRI"), UAB's discretely presented component unit.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on the financial statements based on our audits. We did not audit the financial statements of SRI, UAB's discretely presented component unit, as of December 28, 2012 and December 30, 2011 and for the years then ended. Those statements were audited by other auditors whose report thereon has been furnished to us, and our opinion, insofar as it relates to the amounts included for SRI, is based on the report of the other auditors. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on our judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to UAB's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of UAB's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, based upon our audit and the report of the other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of UAB and its discretely presented component unit at September 30, 2013 and 2012, and the respective changes in financial position and, where applicable, cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 1, the financial statements of UAB are intended to present the financial position, the changes in financial position and, where applicable, the cash flows of only that portion of the business-type activities of the financial reporting entity of The University of Alabama System that is attributable to the transactions of UAB. They do not purport to, and do not, present fairly the financial position of The University of Alabama System as of September 30, 2013 and 2012, its changes in financial position, or, where applicable, its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

As discussed in Note 3, UAB has restated its 2012 financial statements for the retrospective application of new accounting standards adopted during 2013. These standards govern the reporting of deferred outflows and deferred inflows of resources, the accounting for debt issuance costs, and the presentation of component units. Our opinion is not modified with respect to this matter.

Other Matters

The accompanying management's discussion and analysis for the years ended September 30, 2013 and 2012 and required supplementary information on pages 11 through 17 and page 57, respectively, is required by accounting principles generally accepted in the United States of America to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audits were conducted for the purpose of forming opinions on the financial statements that collectively comprise UAB's basic financial statements. The introductory information on pages 2 through 9 and the management's report on this page are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Management's Discussion and Analysis (Unaudited)

The objective of management's discussion and analysis is to help readers of UAB's financial statements better understand the financial position and operating activities for the fiscal years ended September 30, 2013 and 2012. UAB's financial statements present the financial position, changes in financial position, and the cash flows of the University, the University of Alabama Hospital (the Hospital), and UAB's blended component units. Condensed financial information of UAB's reportable segments is presented at Note 23. GASB Statement No. 14, *The Financial Reporting Entity* (GASB Statement No. 14), as amended by GASB Statement No. 61, *The Financial Reporting Entity: Omnibus—an amendment of GASB Statements No. 14 and No. 34* (GASB Statement No. 61), requires governmental entities to include in their financial statements as component units, organizations that are legally separate entities for which the governmental entity, as a primary organization, is financially accountable. Southern Research Institute (SRI) is a discretely presented component unit of UAB. Blended component units include Hospital Management L.L.C. (LLC), Triton Health Systems, L.L.C. (Triton), and UAB Research Foundation (UABRF). The following discussion and analysis provides an overview of UAB's financial activities. This discussion should be read in conjunction with the financial statements and notes to the financial statements.

Financial Overview

UAB's financial position remained strong, as assets totaled \$3.90, \$3.55 and \$3.36 billion at September 30, 2013, 2012, and 2011. Increases of \$358 million or 10% from 2012 to 2013 were primarily due to cash and investment increases related to the bonds issued during the year, as well as increases in investment assets, the continued growth in accounts receivable and an adjustment to capital assets to correct an understatement in library materials. Increases of \$201 million or 6.0% from 2011 to 2012 were primarily due to increases in investment assets.

Total liabilities increased \$216 million or 19% from September 30, 2012 to September 30, 2013. The increase results primarily from the issuance of bonds during fiscal year 2013, as well as an adjustment to accrued liabilities to correct an understatement in the compensated absences accrual.

Total liabilities decreased \$14 million or 1.0% from September 30, 2011 to September 30, 2012. The decrease results primarily from reductions in bonds payable related to annual principal payments offset by increases in accounts payable and accrued liabilities.

The change in net position reflects the operating, nonoperating and other activity of UAB, which results from revenues, expenses, and gains and losses, and is summarized for the years ended September 30, 2013, 2012, and 2011, as follows:

	2013	2012 (RESTATED)	2011 (RESTATED)
TOTAL OPERATING REVENUES	\$2,405,991,627	\$2,313,144,589	\$2,156,035,206
TOTAL OPERATING EXPENSES	\$2,674,554,826	\$2,540,375,605	\$2,393,802,633
NET OPERATING LOSS	\$(268,563,199)	\$(227,231,016)	\$(237,767,427)
TOTAL NONOPERATING INCOME, CAPITAL, ENDOWMENT AND OTHER ACTIVITIES	410,964,015	441,328,646	325,954,577
INCREASE (DECREASE) IN NET POSITION	\$142,400,816	\$214,097,630	\$88,187,150

A majority of UAB's endowment funds are invested in common investment pools established by The Board of Trustees of The University of Alabama (the Board). The funds are invested to maximize total return over the long term, with an appropriate level of risk. Any short term reduction in the fair value of the endowment portfolio will not have a meaningful immediate impact on the portion of investment income available to support current year operating expenses since such distributions are made pursuant to The University of Alabama System's (the System) spending rate policy.

Statements of Net Position

The statement of net position presents the financial position of UAB at the end of the fiscal year, and includes all assets, deferred outflows, liabilities, and deferred inflows recorded on the accrual basis of accounting. The changes in net position are indicators of whether the overall financial condition of UAB has improved or worsened during the year. A summarized comparison of UAB's assets, deferred outflows, liabilities, deferred inflows, and net position at September 30, 2013, 2012, and 2011, is as follows:

	2013	2012 (RESTATED)	2011 (RESTATED)
ASSETS AND DEFERRED OUTFLOW OF RESOURCES			
Capital Assets, Net	\$1,524,883,924	\$1,433,681,378	\$1,421,985,903
Other Assets	2,379,708,092	2,112,597,210	1,923,491,748
TOTAL ASSETS	\$3,904,592,016	\$3,546,278,588	\$3,345,477,651
Deferred outflow from debt refundings	12,958,289	13,019,885	13,722,165
TOTAL ASSETS AND DEFERRED OUTFLOW OF RESOURCES	\$3,917,550,305	\$3,559,298,473	\$3,359,199,816
LIABILITIES, DEFERRED INFLOW OF RESOURCES AND NET POSITION			
Current Liabilities	\$390,353,766	\$342,013,574	\$329,818,205
Noncurrent Liabilities	961,097,310	793,650,118	819,804,736
TOTAL LIABILITIES	\$1,351,451,076	\$1,135,663,692	\$1,149,622,941
Deferred inflow from debt refundings	273,518	209,886	249,610
Net Position	\$2,565,825,711	\$2,423,424,895	\$2,209,327,265
TOTAL LIABILITIES, DEFERRED INFLOW OF RESOURCES AND NET POSITION	\$3,917,550,305	\$3,559,298,473	\$3,359,199,816

At September 30, 2013, the major categories of current assets consist primarily of cash and cash equivalents, short-term investments, and accounts receivable, which totaled \$1.01 billion of the \$1.06 billion and increased \$140.9 million or 16.3% from 2012. The increase is a result of increases in cash related to bond proceeds and growth in short term investments.

At September 30, 2012, the major categories of current assets consist primarily of cash and cash equivalents, short-term investments, and accounts receivable, which totaled \$865.6 million of the \$910.9 million and increased \$120.7 million or 16.2% from 2011. The increase is a result primarily of growth in short term investments.

At September 30, 2013, total current liabilities of \$390.4 million consist primarily of accounts payable, accrued payroll and related benefits, and unearned revenue, which totaled \$357.4 million, compared to \$308.8 million at September 30, 2012, an increase of \$48.6 million or 15.7% from 2012.

At September 30, 2012, total current liabilities of \$342.0 million consist primarily of accounts payable, accrued payroll and related benefits, and unearned revenue, which totaled \$308.8 million, compared to \$300.3 million at September 30, 2011, an increase of \$8.5 million or 2.8% from 2011.

UAB's endowment and life income investments increased \$25.7 million to \$393.4 million from September 30, 2012 to September 30, 2013. This increase resulted from net investment gains and by the establishment of new endowment funds through gifts and the creation of Board-designated quasi-endowments. UAB's endowment funds consist of both permanent and quasi-endowments.

UAB's endowment and life income investments increased \$39.6 million to \$367.7 million from September 30, 2011 to September 30, 2012. This increase resulted from net investment gains and by the establishment of new endowment funds through gifts and the creation of Board-designated quasi-endowments. UAB's endowment funds consist of both permanent and quasi-endowments.

Permanent endowment funds are those funds received from donors with the requirement that the principal remain unspent and invested in perpetuity to produce income to be expended for the purposes specified by the donor. Quasi-endowments consist of restricted or unrestricted funds that have been set aside by actions of the Board to produce income for an established purpose until the time the Board reverses its action. Endowment income supports scholarships, fellowships, professorships, research efforts, and other programs and activities of UAB.

At September 30, 2013, 2012, and 2011 respectively, UAB's investment in the Professional Liability Trust Fund (PLTF) totaled approximately \$50.4,

\$38.9 and \$29.1 million. The \$11.5 million increase from September 30, 2012 to September 30, 2013 is a result of growth in investment values at September 30, 2013. The \$9.8 million increase from September 30, 2011 to September 30, 2012 is a result of growth in investment values at September 30, 2012.

UAB implemented GASB Statement No. 65, *Items Previously Reported as Assets and Liabilities* (GASB Statement No. 65), during fiscal year 2013. As a result, \$12.9 million in bond deferred refunding amounts were reclassified to Deferred Outflows of Resources and \$0.3 million in bond deferred refunding amounts were reclassified to Deferred Inflows of Resources. Prior to this implementation, the amounts were reported in long-term debt.

Capital and Debt Activities

An aspect of UAB's continued growth is an emphasis on the expansion and maintenance of capital assets. UAB continues to implement its long-range capital plan.

Capital assets primarily include land, buildings, fixed equipment systems, and inventoried equipment. The original costs of capital assets increased approximately \$170.8 million and \$114.4 million from September 30, 2012 to September 30, 2013 and from September 30, 2011 to September 30, 2012, respectively. This increase consists primarily of capital expenditures and capital additions totaling \$194.8 million (offset primarily by \$24.0 million in disposals) and \$138.9 million (offset primarily by \$24.6 million in disposals) in 2013 and 2012. Capital additions are comprised primarily of renovation and new construction of research and health care facilities, as well as additions to improve information technology systems. Annual additions were funded with capital funds, grants, gifts of \$14.1 million and \$14.7 million, debt proceeds of \$47.5 million and \$28.2 million, and the remainder by UAB funds designated for capital purchases in 2013 and 2012, respectively.

Capital projects in process at September 30, 2013 include construction of the Abrams-Engel Institute for Visual Arts, renovation of the School of Dentistry and renovation of UAB Highlands Hospital. Capital projects in process at September 30, 2012 include renovation of Wallace Tumor Institute, renovation of the Health Professions Building and construction of the Steam Plant.

UAB's long-term debt related to capital assets, consisting of bonds and capital leases, totaled \$956.1, \$789.6, and \$812.9 million at September 30, 2013, 2012, and 2011, respectively. The increase in debt during 2013 consisted primarily of the bonds issued during the year, partially offset by the refunding of debt outstanding. The decrease in debt during 2012 consisted primarily of the principal payments made in accordance with the debt instruments.

Net Position

Net position represents the residual interest in UAB's assets and deferred outflows after liabilities and deferred inflows are deducted. UAB's net position at September 30, 2013, 2012, and 2011, is summarized as follows:

	2013	2012 (RESTATED)	2011 (RESTATED)
INVESTED IN CAPITAL ASSETS	\$696,323,637	\$686,141,974	\$698,603,635
RESTRICTED			
Nonexpendable	273,651,082	252,844,971	228,120,369
Expendable	212,482,294	211,866,065	198,958,938
UNRESTRICTED	1,383,368,698	1,272,571,885	1,083,644,323
TOTAL NET POSITION	\$2,565,825,711	\$2,423,424,895	\$2,209,327,265

Net position invested in capital assets represents UAB's capital assets, net of accumulated depreciation and outstanding principal of debt in excess of related bond proceeds attributable to the acquisition, construction, or improvement of those assets. The \$10.2 million increase in 2013 reflects the continued capital asset development in accordance with UAB's long-range capital plan and an adjustment made during the year to capital assets to correct an understatement in library materials, offset by the increase in debt related to the bonds issued during the year. The \$12.5 million decrease in 2012 reflects the continued capital asset development in accordance with UAB's long-range capital plan and decrease in debt due to principal payments made offset of use of bond proceeds attributable to the acquisition, construction of capital assets.

Restricted nonexpendable net position includes UAB's permanent endowment funds and annuity and life income assets that will ultimately become pure endowment funds. The \$20.9 million increase in 2013 results primarily from the increase in fair values of investments and contributions. The \$24.7 million increase in 2012 results primarily from the increase in fair values of investments and contributions.

Restricted expendable net position is subject to externally imposed restrictions governing its use. Restricted expendable net position includes UAB's assets whose use is restricted by an external restriction. The \$0.6 million increase in 2013 results primarily from gifts. The \$12.9 million increase in 2012 results primarily from gifts.

Unrestricted net position includes UAB's assets whose use is not restricted by an external entity. Unrestricted net position increased \$110.8 million and \$188.9 million or 8.7% and 17.4% in 2013 and 2012, respectively.

Although unrestricted net position is not subject to externally imposed restrictions, UAB has designated available unrestricted net position to be used for academic and research programs as well as capital projects.

Statements of Revenues, Expenses, and Changes in Net Position

The statement of revenues, expenses, and changes in net position presents UAB's results of operations, as well as the nonoperating revenues and expenses. Annual state appropriations are classified as nonoperating revenues according to governmental accounting standards, even though the state-appropriated funds are used to support the operations of UAB. Without the nonoperating revenues, in particular the state appropriations and private gifts, UAB would not be able to cover its costs of operations. A summarized comparison of UAB's revenues, expenses and changes in net position for the years ended September 30, 2013, 2012, and 2011 is presented on the following page:

	2013	2012 (Restated)	2011 (Restated)
OPERATING REVENUES			
Student tuition and fees, net	\$146,183,606	\$130,569,653	\$115,886,758

Figures A and A1 are graphic illustrations of revenues by source (both operating and nonoperating), which are used to fund UAB's operating activities for the years ended September 30, 2013 and 2012, respectively.

Figure A: Revenue Streams 2013

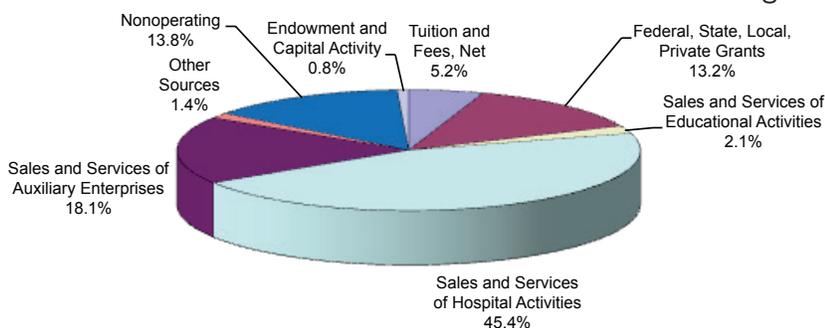

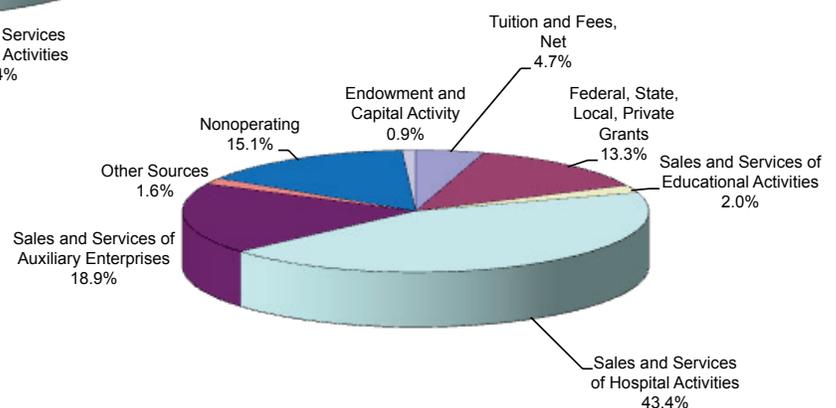

Figure A1: Revenue Streams 2012

Gross tuition and fees revenue increased by \$16.0 million and \$14.2 million in 2013 and 2012, respectively. Tuition rates increased 5% in 2013 and 8% in 2012. Total student headcount of 19,283 and 18,777 increased by 506 and 74 or 2.7% and 0.4% in 2013 and 2012, respectively.

UAB recognized \$46.1, \$44.1 and \$39.1 million in gift revenue (composed partially of \$4.4, \$0.5, and \$0.5 million and \$9.6, \$11.0, and \$9.6 million in capital and endowment gifts, respectively) for the years ended September 30, 2013, 2012, and 2011, respectively.

UAB receives state educational appropriations and capital funding from the State of Alabama. UAB recognized educational appropriations and capital funding from the State of Alabama totaling \$267.1, \$279.7, and \$264.2 million, of which \$258.4, \$268.6, and \$254.3 million was from the Educational Trust Fund (ETF), which is included as nonoperating revenue in 2013, 2012, and 2011, respectively. The remaining \$8.7, \$11.1, and \$9.9 million represents Public School and College Authority funds and other state

capital funds in 2013, 2012 and 2011, respectively. UAB received no State Fiscal Stabilization Funds in 2013; however, UAB received \$0.5 and \$26.8 million in State Fiscal Stabilization Funds in 2012 and 2011, respectively.

Net hospital sales and service revenue totaled \$1.28 billion, \$1.19 billion, and \$1.11 billion, an increase of 7.0% and 7.7% from 2012 to 2013 and 2011 to 2012, respectively. This increase results from increased volume, contract improvements, and ongoing revenue-cycle improvement activities.

UAB receives grant and contract revenue from federal, state, local, and private agencies. These funds are used to further the mission of UAB: research, education, and public service. In addition to the funds received in exchange for services performed, UAB received \$0.06, \$3.2, and \$6.8 million in 2013, 2012, and 2011, respectively, in funds to be used to acquire capital assets. Figures B and B1 are illustrations of the breakout of the funding sources for grant and contract revenue for the years ended September 30, 2013 and 2012, respectively.

Figure B: Grants and Contract Revenues

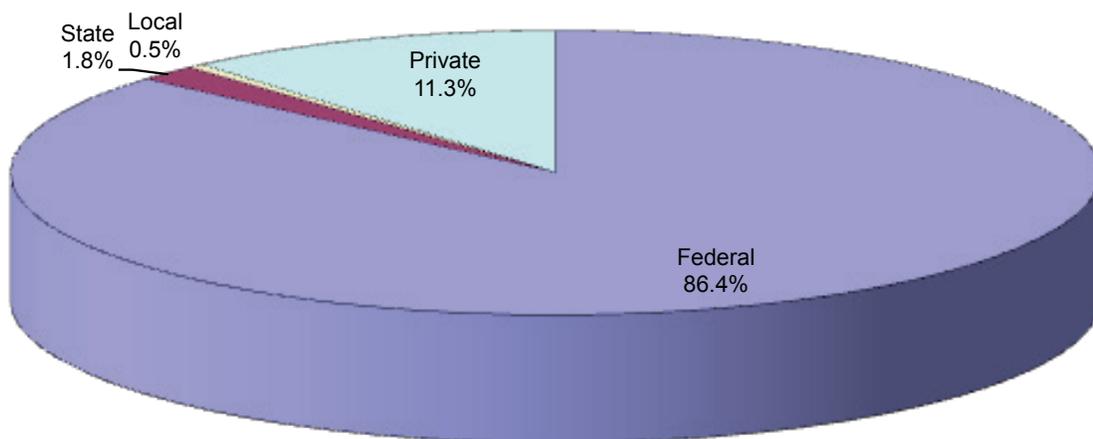

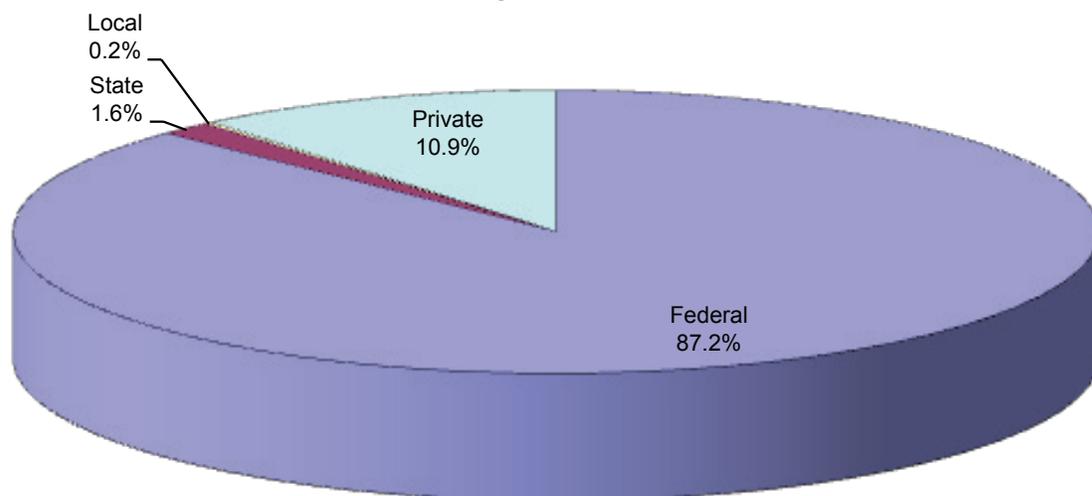

Figure B1: Grants and Contract Revenues

Net investment income decreased \$41.0 million from 2012 to 2013. The decrease is primarily a result of a decline in growth in the fair value of investments. Net investment income increased \$139.2 million from 2011 to 2012. The increase is primarily a result of growth in the fair value of investments. Net investment income for the years ended September 30, 2013, 2012, and 2011, consist of the following components:

	2013	2012 (RESTATED)	2011 (RESTATED)
Interest and Dividends	\$47,697,584	\$46,221,115	\$51,753,275
Net Increase (Decrease) In the Fair Value Of Investments	29,279,289	74,828,997	(53,902,311)
Return on Equity Investments	10,405,406	7,286,485	(8,673,740)
	\$87,382,279	\$128,336,597	\$(10,822,776)

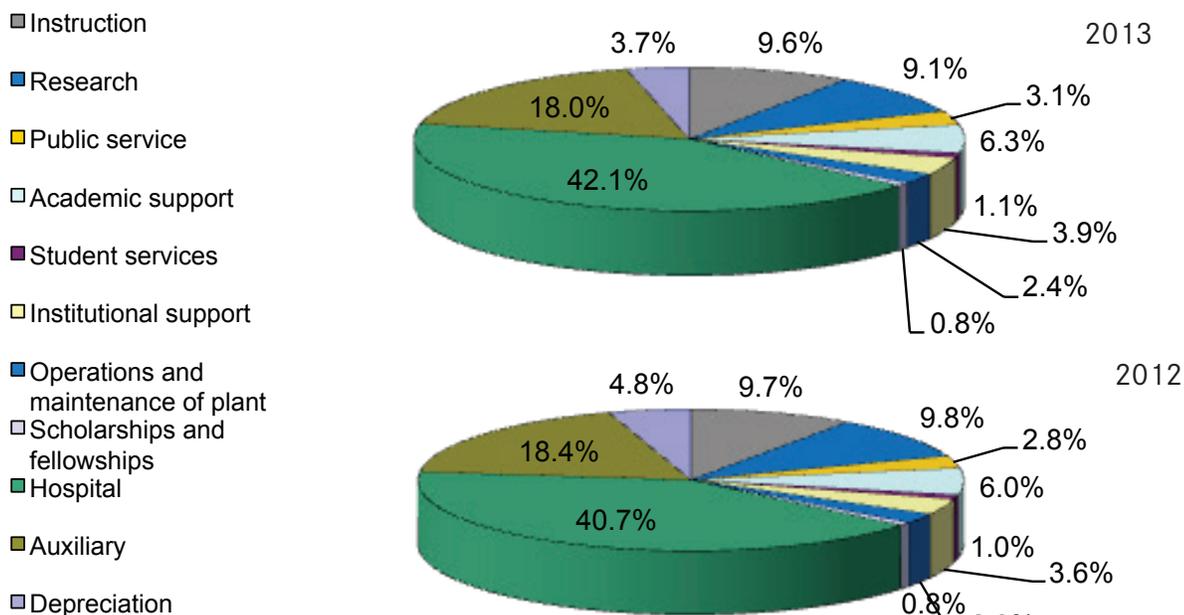

A comparative summary of UAB's operating expenses for the years ended September 30, 2013, 2012, and 2011, is as follows:

	2013	2012 (RESTATED)	2011 (RESTATED)
Salaries, Wages, and Benefits	\$1,327,917,671	\$1,244,287,467	\$1,182,131,940
Supplies and Services	1,227,334,700	1,153,881,410	1,070,843,029
Depreciation	98,303,065	123,047,954	121,815,300
Scholarships and Fellowships	20,999,390	19,158,774	19,012,364
	\$2,674,554,826	\$2,540,375,605	\$2,393,802,633

Salaries, wages, and benefits increased \$83.6 million or 6.7% during 2013 and increased \$62.2 million or 5.3% during 2012. This increase in 2013 is due primarily to the growth of UAB's salary base, benefit costs, and an adjustment to salaries expense to correct an understatement in the compensated absences accrual. This increase in 2012 is due primarily to UAB's growth in salary base and benefit costs. Supplies and services expenses increased \$73.5 million

and \$83.0 million or 6.4% and 7.7% during 2013 and 2012, respectively. This increase is primarily attributable to UAB's continued growth.

In addition to their natural classification, it is also informative to review operating expenses by function. Graphic illustrations of UAB's operating expenses by function for the years ended September 30, 2013 and 2012, respectively, are presented as follows:

Statements of Cash Flows

The statement of cash flows presents the significant sources and uses of cash. UAB's cash, primarily

held in demand deposit accounts, is minimized by sweeping available cash balances into investment accounts on a daily basis.

	2013	2012 (RESTATED)	2011 (RESTATED)
Net Cash Used In Operating Activities	\$(179,888,501)	\$(105,779,543)	\$(128,600,656)
Net Cash Used In Capital and Related Financing Activities	(15,544,611)	(171,438,508)	(35,096,926)
Net Cash Provided By Noncapital Financing Activities	326,613,818	348,365,524	346,771,022
Net Cash (Used In) Provided By Investing Activities	(60,852,837)	(127,966,171)	(161,354,526)
Net Increase (Decrease) In Cash And Cash Equivalents	\$70,327,869	\$(56,818,698)	\$21,718,914
Cash and Cash Equivalents, Beginning Of Year	\$268,824,418	\$325,643,116	\$303,924,202
Cash and Cash Equivalents, End Of Year	\$339,152,287	\$268,824,418	\$325,643,116

UAB used \$179.8, \$105.8, and \$128.6 million of cash for operating activities, offset by \$326.6, \$348.4, and \$346.8 million of cash provided by noncapital financing activities in 2013, 2012 and 2011, respectively. Noncapital financing activities, as defined by the GASB, include state educational appropriations and gifts received for other than capital purposes that are used to support operating expenses.

Cash of \$15.5, \$171.4, and \$35.1 million in 2013, 2012 and 2011, respectively, was used for capital and related financing activities, primarily purchases of capital assets and principal and interest payments on long-term debt, partially offset by sources that included bond proceeds, gifts, and grants and contracts for capital purposes. Cash used in investing activities totaled \$60.9, \$128.0 and \$161.4 million in 2013, 2012 and 2011, respectively.

Economic Factors That Will Affect The Future

As a labor-intensive organization, UAB faces competitive pressures related to attracting and retaining faculty and staff.

The State of Alabama appropriates money each year to UAB for operating costs and nonoperating cash requirements, including capital expenditures. Because the State is mandated by its Constitution to operate with a balanced budget, the State occasionally has reduced its appropriations, through a process known as "proration," when its annual revenues are not expected to meet budgeted appropriations. During the year ending September 30, 2011, the State implemented proration. As the State could implement proration in future years, UAB continues implementing cost-saving measures in order to balance its own budget.

UAB will strive to remain highly competitive in terms of attracting federal grant and contract revenue, primarily from the NIH, as seven individual departments rank among the top ten in their specialties.

Private gifts are an important part of the fundamental support of UAB. Economic pressures affecting donors may also affect the future level of support UAB receives from corporate and individual giving. In October 2013, UAB launched its largest fundraising campaign to date known as "Give something change everything." The fundraising goal is \$1 billion and will run through 2018.

The Hospital faces significant challenges in a dynamic healthcare sector and volatile economic environment. The demand for health care services and the cost of providing them are increasing significantly while the revenues to support these services are diminishing. In addition to cost increases such as rising salary and benefit costs, the Hospital also faces additional costs associated with new technologies, the education and training of health care professionals and provision of care for a disproportionate share of the medically underserved in Alabama. In recent years, federal legislation has been enacted to slow future rate increases in Medicare and Medicaid and reduce medical education and disproportionate share funding. Management is committed to staying abreast of pertinent issues; implementing appropriate management actions and continuing to provide quality care for all patients.

These financial statements are designed to provide a general overview of the University of Alabama at Birmingham and to demonstrate UAB's accountability. Questions concerning any information provided in this report or requests for additional information should be addressed to the Office of the Vice President for Financial Affairs and Administration, The University of Alabama at Birmingham, AB 1030, 1720 2ND AVE S, BIRMINGHAM AL 35294-0106.

The University of Alabama at Birmingham Notes to Financial Statements

September 30, 2013

(1) Summary of Significant Accounting Policies

The University of Alabama at Birmingham (UAB) is one of three campuses of The University of Alabama System (the System), which is a discretely presented component unit of the State of Alabama (the State). The financial statements of UAB are intended to present the financial position, changes in financial position, and the cash flows of only that portion of the business-type activities of the financial reporting entity of the System that is attributable to the transactions of UAB. The System is recognized as an organization exempt from Federal income tax under Section 501(a) of the Internal Revenue Code as an organization described in Section 501(c)(3) of the Internal Revenue Code.

UAB, as a public institution, prepares its financial statements in accordance with accounting principles generally accepted in the United States of America, as prescribed by the Governmental Accounting Standards Board (GASB).

GASB Statement No. 35, *Basic Financial Statements and Management's Discussion and Analysis for Public Colleges and Universities* (GASB Statement No. 35), establishes standards for external financial reporting for public colleges and universities and requires that resources be classified for accounting and reporting purposes into the following three net position categories:

- **Invested in Capital Assets:**

Capital assets, net of accumulated depreciation and outstanding principal balances of debt attributable to the acquisition, construction, or improvement of those assets.

- **Restricted:**

Nonexpendable: Net position subject to externally imposed stipulations that they be maintained permanently by UAB. Such assets include UAB's permanent endowment funds.

Expendable: Net position whose use by UAB is subject to externally imposed stipulations that can be fulfilled by actions of UAB pursuant to those stipulations or that expire by the passage of time.

- **Unrestricted:**

The net position that is not subject to externally imposed stipulations. Unrestricted net position may be designated for specific purposes by action of management. Substantially all of the unrestricted net position is designated for academic and research programs and initiatives and capital programs.

- **Corrections of Errors:**

During fiscal year 2013, the University deter-

mined that the accrual for compensated absences was improperly calculated as of September 30, 2012 and for several years prior. This error resulted in an understated compensated absences accrual of \$24.8 million as of September 30, 2012 and was created over a multiple year period of time likely beginning in fiscal 2004. This error overstated fiscal 2012 operating expenses and accrued liabilities by \$500,000. In addition, during fiscal year 2013, the University determined that the accrual for library material depreciation expense was improperly calculated as of September 30, 2012 and for several years prior. This error resulted in an understated net property, plant and equipment of \$27.1 million as of September 30, 2012 and was created over a multiple year period of time likely beginning in fiscal 2004. This error overstated fiscal 2012 operating expenses and understated net property, plant and equipment by \$4.86 million. The cumulative errors were corrected in the fiscal 2013 financial statements resulting in an increase in Salary, Wages, and Benefits expense of \$24.8 million and a decrease in Depreciation expense of \$27.15 million, netting to an overall reduction of operating expenses and operating loss of \$2.35 million for the year ended September 30, 2013. Management does not believe these errors are material to the 2013 or to any previously issued financial statements taken as a whole.

UAB reports as a business type activity, as defined by GASB Statement No. 35. Business type activities are those financed in whole or in part by fees charged to external parties for goods or services.

UAB policy states that operating activities as reported by the statement of revenues, expenses, and changes in net position are those that generally result from exchange transactions such as payments received for providing services and payments made for services or goods received. Certain significant revenue streams relied upon for operations are recorded as nonoperating revenues, as defined by GASB Statement No. 35.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the dates of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates. The estimates susceptible to significant changes include those used in determining the allowance for contractual adjustments and uncollectible accounts, valuation of investments, accruals related to compensated absences, allowance for self insurance, estimated amounts due to or from third-party payors, and reserves for general and professional liability claims. Although some variability is inherent in these estimates, management believes that the amounts provided are adequate.

Scope of Statements

UAB is principally comprised of a university (the University) and the University of Alabama Hospital (the Hospital) which are UAB's reportable segments as defined by GASB Statement No. 37, *Basic Financial Statements and Management's Discussion and Analysis-For State and Local Governments: Omnibus an Amendment of GASB Statements No. 21 and No. 34*. UAB's financial statements present the financial position, changes in financial position, and the cash flows of the University, the Hospital, and UAB's blended component units. Condensed financial information of UAB's reportable segments is presented at Note 23. GASB Statement No. 14, *The Financial Reporting Entity* (GASB Statement No. 14), requires governmental entities to include in their financial statements as a component unit, organizations that are legally separate entities for which the governmental entity, as a primary organization, is financially accountable.

In November 2010, the GASB issued Statement No. 61, *The Financial Reporting Entity: Omnibus* (GASB Statement No. 61), effective for UAB's fiscal year beginning October 1, 2012. This Statement modifies the existing requirements for the assessment of component units that should be included in the financial statements of UAB. Refer to Footnote 3 for the cumulative effect that the implementation of GASB Statement No. 61 had on UAB's net position and changes in net position for the years ended September 30, 2013 and 2012.

The by-laws and corporate charter of the Southern Research Institute (SRI) allow UAB to appoint a majority of the board of directors and UAB is financially accountable for SRI. Therefore, management has determined that SRI is a discretely presented component unit of UAB under GASB Statements No. 14 and No. 61. SRI reports financial results under principles prescribed under the GASB. SRI offers research and technology services to support industry and federal government agencies primarily in the areas of drug design and evaluation, environmental controls, materials engineering, and chemical and biological defense. The activities of SRI are maintained using a fiscal calendar year-end that predates UAB's fiscal year-end of September 30. The financial results of SRI are discretely presented in the accompanying financial statements.

The by-laws and corporate charters of the UAB Research Foundation (UABRF) allow UAB to appoint a majority of the board of directors and allow UAB to impose its will on the entity. UABRF operates for the exclusive benefit of UAB. Additionally, Triton Health Systems, L.L.C. (Triton) and UAB Hospital Management, L.L.C. (LLC) have governing bodies that are substantively the same as the governing body of UAB and there is a financial benefit or burden relationship between UAB and these entities. Therefore, management has determined that UABRF, Triton, and LLC (the Blended Component Units) constitute blended component units of UAB under GASB Statements No. 14 and No. 61. The Blended Component Units report financial results under principles prescribed under the GASB.

Triton was formed to advance the educational and

research mission of UAB and to educate and train physicians and other health care professionals. Triton is owned 99% by UAB and 1% by The UAB Educational Foundation (UABEF). UABRF was organized exclusively for charitable, scientific, and educational purposes in order to benefit UAB. The LLC was organized for the exclusive purpose of supporting UAB in connection with the management, administration, and operation of the Hospital, including, without limitation, providing management, administrative, and staffing services to the Hospital. UABRF and the LLC maintain a September 30 year-end. The activities of Triton are maintained using a fiscal calendar year-end that predates UAB's fiscal year-end of September 30. However, interfund cash transactions during the period from January 1 through September 30 have been eliminated. Since Triton qualifies as a major component unit under GASB Statement No. 61, condensed financial information is presented at Note 24. Separate financial statements are available for Triton and UABRF by contacting UAB.

Other significant accounting policies are as follows:

Cash and cash equivalents: For purposes of the statement of cash flows, UAB considers all highly liquid investments purchased with an original maturity of three months or less to be cash equivalents. Cash equivalents representing assets of UAB's endowment, life income, and other long-term investments are included in noncurrent investments.

Investments: UAB accounts for its investments, other than land and other real estate held as investments by endowments, in accordance with the provisions of GASB Statement No. 31, *Accounting and Reporting for Certain Investments and For External Investment Pools* (GASB 31) (see Note 5). Investments in equity securities with readily determinable fair values and all investments in debt securities are recorded at their fair value. UAB invests certain amounts in a commingled investment pool sponsored by the System. The value of the investments in the pools is determined by the System and based on UAB's proportionate share of the net asset value of the investment pools. Fair value for the investment pools is provided by the System, based on the fair value of the underlying investment securities held by each investment pool. Fair value of the underlying securities held in each investment pool is based on quoted market prices or dealer quotes, where available, or determined using net asset values provided by underlying investment partnerships or companies, which primarily invest in readily marketable securities. Certain real estate and non-readily marketable securities held in the System-sponsored Endowment Fund and Prime Fund are carried at cost (Note 5). Investments carried at cost are subject to review for impairment.

UAB accounts for its land and other real estate held as investments by endowments in accordance with GASB Statement No. 52, *Land and Other Real Estate Held as Investments by Endowments*. Investments are reported in four categories in the statement of net position. Investments recorded as endowment and life income investments are those invested funds considered by management to be of long duration. Other long-term investments include amounts resulting

from UAB's equity investment in other entities, as discussed in Note 5 and Note 20. Investments for capital projects are included in noncurrent assets. All other investments are included as short-term investments.

Inventories: Inventories are carried at the lower of cost or market. Inventories consist primarily of textbooks, medical supplies, and pharmaceuticals.

Accounts receivable: Accounts receivable consist primarily of tuition charged to students and amounts due from Federal, state, and local governments, or private sources, in connection with reimbursement of allowable expenditures made pursuant to UAB's contracts and grants.

Capital assets: All capital assets are carried at cost on date of acquisition (or in the case of gifts, at fair value on the date of donation), less accumulated depreciation (or in the case of assets leased under capital leases, net of accumulated amortization). UAB computes depreciation for buildings and building improvements (15-40 years) and for fixed equipment systems (3-20 years) using a component method. Depreciation of land improvements (40 years), library materials (10 years), and inventoried equipment (3-20 years) is computed on a straight-line basis. The Hospital uses guidelines established by the American Hospital Association to assign useful lives to inventoried equipment.

Capital assets acquired under capital leases are amortized over the shorter of the lives of the respective leases or the estimated useful lives of the assets. Capital assets acquired through federal grants and contracts in which the federal government retains a reversionary interest are capitalized and depreciated. Interest costs, net of any related investment earnings, for certain assets acquired with the proceeds of tax-exempt borrowings are capitalized as a component of the cost of acquiring those assets.

Computer software capitalization, which is included as inventoried equipment, includes the costs of software and implementation. Implementation costs include consulting expenses and allocation of internal salaries and fringes for the core implementation team.

Pledges: UAB receives gift pledges and bequests of financial support. Revenue is recognized when a pledge representing an unconditional promise to give is received and all eligibility requirements, including time requirements, have been met. In the absence of such a promise, revenue is recognized when the gift is received. Pledges are recorded at their gross, undiscounted amount. Endowment pledges do not meet eligibility requirements and are not recorded as assets until the related gift is received in accordance with the requirements of GASB Statement No. 33, *Accounting and Financial Reporting for Nonexchange Transactions* (GASB Statement No. 33).

Endowment spending: The Alabama Uniform Prudent Management of Institutional Funds Act (UPMIFA) was enacted by the State Legislature and signed into law effective January 1, 2009. UPMIFA prescribes new guidelines for the expenditure of a donor-restricted endowment funds in the absence of overriding, explicit donor stipulations. Its predecessor, UMIFA, focused on the prudent spending of the net appreciation of the fund. UPMIFA instead focuses on the entirety of a donor-restricted endowment fund, that is, both the original gift amount(s) and net apprecia-

tion. UPMIFA eliminates UMIFA's historic-dollar-value threshold, an amount below which an organization could not spend from the fund, in favor of a more robust set of guidelines about what constitutes prudent spending, explicitly requiring consideration of the duration and preservation of the fund.

UPMIFA permits the Board of Trustees of the University of Alabama (the "Board") to appropriate an amount of realized and unrealized endowment appreciation as the Board determines to be prudent. UAB's policy is to retain the endowment realized and unrealized appreciation within an endowment after the spending rate distributions in a manner consistent with the standards of prudence prescribed by UPMIFA. The Board approved a spending rate for the fiscal years September 30, 2013 and 2012 of 5% of a moving three-year average of the market (unit) value.

Unearned revenue: Unearned revenue consists primarily of student fees related predominantly to future fiscal years and amounts received from grant and contract sponsors that have not yet been earned under the terms of the agreements and, therefore, have not yet been included in the net position.

Federal refundable loans: Certain loans to students are administered by UAB with funding primarily supported by the federal government. UAB's Statement of Net Position includes both the notes receivable and the related federal refundable loan liability representing federal capital contributions owed upon termination of the program.

Compensated absences: UAB accrues annual leave for employees at rates based upon length of service and job classification. UAB accrues compensatory time based upon job classification and hours worked. These amounts are included in accounts payable and accrued liabilities.

Student tuition and fees: Student tuition and residence fees are presented net of scholarships and fellowships applied to student accounts, while stipends and other payments made directly to students are presented as scholarship and fellowship expenses.

Grant and contract revenue: UAB receives grant and contract revenue from governmental and private sources. UAB recognizes revenue associated with the sponsored programs in accordance with GASB Statement No. 33, based on the terms of the individual grant or contract.

Hospital revenue: Net patient service revenue is reported at the Hospital's estimated net realizable amounts from patients, third-party payors, and others for services rendered, included estimated retroactive revenue adjustments due to revenue audits, reviews, and investigations. Retroactive adjustments are considered in the recognition of revenue on an estimated basis in the period the related services are rendered.

The Hospital provides care to patients who meet certain criteria under its charity care policy without charge or at amounts less than its estimated rates. Because the Hospital does not pursue collection of amounts determined to qualify as charity care, they are not reported as revenue.

Auxiliary enterprise revenue: Auxiliary enterprise revenues primarily represent revenues generated by intercollegiate athletics and parking as well as subscriber premiums.

Other revenue: Other revenue represents primarily revenues generated by UAB for activities such as intellectual property income and HSF revenues.

Equity investments: Investments in affiliated companies where UAB can exercise significant influence and for which UAB's ownership interest is 50% or less are accounted for using the equity method. The investment in the Professional Liability Trust Fund (PLTF) also is accounted for using the equity method. See Notes 5 and 20.

Nonoperating revenues (expenses): Nonoperating revenues and expenses include State educational appropriations, Federal Pell grants, private gifts for other than capital purposes, investment income, net unrealized appreciation or depreciation in the fair value of investments, interest expense, and loss on asset dispositions. Also, during 2013, the Hospital sold a repurchase option for certain dialysis units to a third party for approximately \$24.3 million and recorded a gain on that sale as a component of other nonoperating revenue.

(2) Related Parties

UAB is affiliated with the UABEF, the University of Alabama Health Services Foundation, P.C. (HSF), UAB Health System (UABHS), and the Valley Foundation (VF). UAB is not financially accountable for HSF, VF, UABEF, and UABHS; therefore, they do not constitute component units under the provisions of GASB Statement No. 14. These entities are not required to be presented as component units under GASB Statement No. 39, *Determining Whether Certain Organizations Are Component Units*, or by GASB Statement No. 61, both of which amend GASB 14.

UABEF provides funds and certain facilities to UAB for its educational and scientific functions and provides support for UAB athletic programs. UABEF has 13 board members, including seven outside members not affiliated with UAB. UABEF leases certain facilities to UAB, with annual rental expense of approximately \$2,004,000 and \$1,919,000 for 2013 and 2012, respectively. UABEF made contributions to UAB which totaled approximately \$6,766,000 and \$6,460,000 in 2013 and 2012, respectively. UABEF's total assets were approximately \$56,280,000 and \$56,704,000 at September 30, 2013 and 2012, respectively. UABEF's total liabilities were approximately \$18,445,000 and \$18,563,000 at September 30, 2013 and 2012, respectively.

HSF's primary purpose is to provide a group medical practice for physicians who are members of the regular faculty of the School of Medicine at UAB and serve on the University of Alabama Hospital's medical staff. It is governed by a 19-member board of directors, 16 of whom are not affiliated with UAB. An affiliation agreement (the Agreement) documents the relationship between HSF and UAB. The University's other operating revenues include approximately \$23,807,000 and \$29,238,000 of funding from HSF in 2013 and 2012, respectively, which is used to support the educational and research activities of

UAB. These funds were paid by HSF pursuant to its tax-exempt purpose and in recognition of the mutual benefit derived by the two organizations from the enhancement and continued development of UAB's programs. The funds were negotiated with HSF as part of UAB's budget development process. In the normal course of business, HSF purchases various services from the Hospital, aggregating approximately \$2,493,000 and \$886,000 in 2013 and 2012, respectively, and the Hospital purchases various services from HSF, aggregating approximately \$36,628,000 and \$30,155,000 for the years ended September 30, 2013 and 2012, respectively. As a result of these transactions, the Hospital had a net payable to HSF of approximately \$236,000 and a net receivable from HSF of approximately \$711,000, respectively, at September 30, 2013 and September 30, 2012.

During 2009, the Hospital entered into an operating agreement with HSF whereby HSF began leasing two floors of the UAB Women and Infants' Facility when construction was completed in February 2010. HSF reimbursed the Hospital for construction costs of this space as they were incurred on a square-footage basis. Total reimbursements are being amortized as rent revenue on a straight-line basis over a period equal to the 90 year total lease term, commencing on February 20, 2010 when the building was placed into service. The Hospital had received reimbursements from HSF totaling approximately \$13,908,000 and \$14,071,000, which is included in the accompanying statement of net position as unearned revenue-other for the years ended September 30, 2013 and 2012, respectively. Approximately \$163,000 was recognized as rent revenue during each of the years ended September 30, 2013 and 2012.

The Board and the HSF's board have entered into an agreement under which UAB and HSF have established a common management group, the UAB Health System to provide management for their existing and future health care delivery operations. The UAB Health System Board of Directors is composed of 18 members, of whom nine are appointed by the Board. For the fiscal years ended September 30, 2013 and 2012, respectively, UAB contributed approximately \$8,558,000 and \$8,301,000 to the UAB Health System Board to support Health System administrative functions. In addition, at September 30, 2013 and 2012, respectively, the Hospital had a net payable from the Health System of approximately \$281,000 and \$825,000.

VF's primary purpose is to provide a group medical practice for physicians who are faculty members in the UAB School of Medicine Huntsville program. It is governed by a 17-member board of directors, consisting of three nonvoting members and 14 voting members, of whom seven are affiliated with UAB. VF's total assets were approximately \$9,357,000 (unaudited) and \$8,815,000 (unaudited) and total liabilities were approximately \$1,132,000 (unaudited) and \$1,275,000 (unaudited) at September 30, 2013 and 2012, respectively.

The Hospital received premium revenue (capitation fees) of approximately \$56,903,000 and \$64,068,000 from Triton during the years ended September 30, 2013 and 2012.

The Hospital purchased \$88,473,000 and \$9,384,000 in management, administrative, and staffing services from the LLC during the years ended September 30, 2013 and 2012, respectively.

(3) Effect of Recently Implemented Pronouncements

As a result of UAB's implementation of GASB Statement No. 61, SRI no longer constitutes a blended component unit of UAB for the years ended September 30, 2013 and 2012. GASB Statement No. 61 amends the criteria for reporting component units as if they were part of the primary government (that is, blending) and SRI does not meet the amended criteria. SRI remains a component unit of UAB since the by-laws and corporate charter of SRI allow UAB to appoint a majority of the board of directors and UAB remains financially accountable for SRI. The financial results of SRI are discretely presented in the accompanying financial statements in accordance with GASB Statement No. 61. The effect of the changes from the implementation of GASB Statement No. 61 on UAB's financial statements for

the year ended September 30, 2012 is included in the table below.

In June 2011, the GASB issued Statement No. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position* (GASB Statement No. 63), effective for UAB's fiscal year beginning October 1, 2012. This Statement modifies the presentation of deferred inflows and deferred outflows in the financial statements. In March 2012, the GASB issued Statement No. 65, *Items Previously Reported as Assets and Liabilities* (GASB Statement No. 65), effective for UAB's fiscal year beginning October 1, 2013; however, UAB early adopted this Statement effective for the fiscal year beginning October 1, 2012. This Statement establishes accounting and financial reporting standards that reclassify, as deferred outflows of resources or deferred inflows of resources, certain items that were previously reported as assets and liabilities and recognizes, as outflows of resources or inflows of resources, certain items that were previously reported as assets and liabilities. The effect of the changes from the implementation of GASB Statements No. 63 and No. 65 on UAB's financial statements for the year ended September 30, 2012 is included in the table below:

September 30, 2012

	AS PREVIOUSLY REPORTED	GASB 61 ADJUSTMENTS	GASB 63/65 ADJUSTMENTS	AS RESTATED

(4) Cash and Cash Equivalents

The Board approves, by resolution, all banks or other financial institutions utilized as depositories for UAB funds. Prior to approval, each proposed depository must provide evidence of its designation by the Alabama state treasurer as a qualified public depository under the Security for Alabama Funds Enhancement Act (SAFE). From time to time, the Board may request that the depository provide evidence of its continuing designation as a qualified public depository. In the past, the bank pledged collateral directly to each individual public entity. Under the mandatory SAFE program, each qualified public depository (QPD) is required to hold collateral for all its public deposits on a pooled basis in a custody account established for the State Treasurer as SAFE administrator. In the unlikely event a public entity should suffer a deposit loss due to QPD insolvency or default, a claim form would be filed with the state treasurer, who would use the SAFE pool collateral or other means to reimburse the loss.

The System sponsors a short-term investment pool for the System entities to invest operating cash reserves. The Short-Term Fund is invested in a treasury obligation money market fund managed by Federated. As of September 30, 2013, the University, within the Short-Term Fund, had approximately \$118,900,000, all of which was invested in the money market fund. As of September 30, 2012, the University had approximately \$90,100,000 in the Short-Term Fund, all of which was invested in the money market fund. The assets held in the money market fund are presented in cash and cash equivalents and restricted cash and cash equivalents. As of September 30, 2013 and 2012, respectively, UAB had cash and cash equivalents totaling \$339,152,287 and \$268,824,418.

(5) Investments

The Board has the responsibility for the establishment of the investment policy and the oversight of the investments for the System and related entities. In order to facilitate System-wide investment objectives and achieve economies of scale, the Board has established four distinct investment pools based primarily on the projected investment time-horizons for System funds. These investment pools are the Endowment Fund, Prime Fund, Intermediate Fund and the Short-Term Fund (collectively, the "System Pools"). Pursuant to Board investment policies, each System or related entity may include all or a portion of their investments within the System sponsored investment pools. These investment funds are considered 'internal' investment pools under GASB Statement No. 31,

with the assets pooled on a market value basis. Separately managed funds that are resident with each entity are to be invested consistent with the asset mix of the corresponding System investment pool.

UAB applies the same investment policies for separately held investments as those of the System Pools.

The following disclosures relate to both the System Pools, which include the investments of other System entities and other affiliated entities, and the UAB-specific investment portfolio.

Endowment Fund

The purpose of the Endowment Fund is to pool endowment and similar funds to support the System campuses, the Hospital and related entities in carrying out their respective missions over a perpetual time frame. Accordingly, the primary investment objectives of the Endowment Fund are to preserve the purchasing power of the principal and provide a stable source of perpetual financial support to the endowment beneficiaries. To satisfy the long-term rate of return objective, the Endowment Fund relies on a total return strategy in which investment returns are achieved through both capital appreciation and natural income. Asset allocation targets are established to meet return objectives while providing adequate diversification in order to minimize investment volatility. As discussed in Note 1, certain investments within the Endowment Fund are valued at cost, unless impaired. UAB's portion of investments in the Endowment Fund which are measured at cost totaled approximately \$40,600,000 and \$40,100,000 at September 30, 2013 and 2012, respectively.

Prime Fund

The Prime Fund is a longer-term fund used as an investment vehicle to manage operating reserves with a time horizon of seven to ten years. This fund has an investment objective of growth and income and is invested in a diversified asset mix of liquid and semi-liquid securities. This fund is not currently invested in long-term lockup funds with illiquid assets. As discussed in Note 1, certain investments in the Prime Fund are valued at cost, unless impaired. UAB's portion of investments which are measured at cost totaled approximately \$6,600,000 at September 30, 2013 and at September 30, 2012.

Intermediate Fund

The Intermediate Fund serves as an investment vehicle to manage operating reserves with a time horizon of two to six years. This fund is also used to balance the other funds when looking at the System's entire asset allocation of operating reserves relative to its investment objectives. The Intermediate Fund has an investment objective of income with preservation of capital and is invested in intermediate term fixed income securities. System policy states that at least one of the Intermediate Fund investment managers must be a large mutual fund providing daily liquidity.

Short-Term Fund

The Short-Term Fund contains the short-term operating reserves of the various System entities. Because of the different income and disbursement requirements of each entity, consolidation of these funds reduces daily cash fluctuations and minimizes the amount of short-term cash reserves needed. Assets held in the Short-Term Fund are invested with the primary objective of stability of principal and liquidity. Such investments are restricted to high quality, liquid, money market funds and other fixed income obligations with a maturity of one year or less. Refer to Note 4 for additional information related to the Short-Term Fund.

Although the investment philosophy of the Board is to minimize the direct ownership of investment vehicles, preferring ownership in appropriate investment fund groups, there are certain direct investments that are held in the name of the Board. All other investments in the System Pools are classified as commingled funds.

The composition of investments, by investment type, for the System Pools at September 30, 2013 is as follows:

Investment Risk Factors

There are many factors that can affect the value of investments. Some, such as custodial credit risk, concentration of credit risk and foreign currency risk, may affect both equity and fixed income securities. Equity securities respond to such factors as economic conditions, individual company earnings performance and market liquidity, while fixed income securities are particularly sensitive to credit risks and changes in interest rates.

Credit Risk

Fixed income securities are subject to credit risk, which is the chance that a bond issuer will fail to pay interest or principal in a timely manner, or that negative perceptions of the issuer's ability to make these payments will cause security prices to decline. These circumstances may arise due to a variety of factors such as financial weakness, bankruptcy, litigation, and/or adverse political developments. Certain fixed income securities, primarily obligations of the U.S.

government or those explicitly guaranteed by the U.S. government, are not considered to have significant credit risk.

A bond's credit quality is an assessment of the issuer's ability to pay interest on the bond, and ultimately, to pay the principal. Credit quality is evaluated by one of the independent bond-rating agencies, for example Moody's Investors Service (Moody's) or Standard and Poor's (S&P). The lower the rating, the greater the chance—in the rating agency's opinion—that the bond issuer will default, or fail to meet its payment obligations. Generally, the lower a bond's credit rating, the higher its yield should be to compensate for the additional risk.

Board policy recognizes that a limited amount of credit risk, properly managed and monitored, is prudent and provides incremental risk adjusted return over its benchmark. Credit risk in each investment pool is managed primarily by diversifying across issuers and limiting the amount of portfolio assets that can be invested in non-investment grade securities. Fixed

income holdings in a single entity (excluding obligations of the U.S. government and its agencies) may not exceed 5% of a manager's portfolio measured at market value. At least 95% of these fixed income investments must be in investment grade securities (securities with ratings of BBB- or Baa3) or higher. However, multi-strategy fixed income managers may have up to 20% of their investments in non-investment grade securities. Securities of foreign entities denominated in U.S. dollars are limited to 10% of a manager's portfolio. Securities denominated in currencies other than U.S. dollars are not permissible unless part of a multi-strategy fixed income account where the limitation is 20% of the manager's portfolio.

The investment policy recognizes that credit risk is appropriate in balanced investment pools such as the Endowment and Prime Funds, which are tracked against the Barclays Government Credit Index for U.S. investments and the Citigroup WGBI Index for international investments benchmarks for the fixed income portion of these pools. Fixed income investments within the Endowment and Prime Funds include corporate and U.S. treasury and/or agency bonds with a minimum BBB- rating and an average duration of four years. In addition, approximately \$20,000 in the Endowment Fund at September 30, 2012, is invested in unrated fixed income securities, excluding fixed income commingled funds. Fixed income commingled funds were approximately \$317,200,000 and \$259,800,000 in the Endowment and Prime Funds, at September 30, 2013 and 2012, respectively.

The Intermediate Fund is benchmarked against the 1-3 Year Barclays Government Credit Index with funds invested with four separate fund managers. Fixed income investments include corporate, mortgage backed, asset backed, collateralized mortgage and U.S. treasury and/or agency bonds with an average minimum rating of BB or higher. For September 30, 2013 and 2012, approximately \$135,800,000 and \$63,200,000, respectively, was invested by the Intermediate Fund in unrated fixed income securities, excluding commingled bond funds, money market funds and commercial paper. Fixed income commingled funds and commercial paper totaled approximately \$151,300,000 and \$235,200,000 at September 30, 2013 and 2012, respectively. For September 30, 2013 and 2012, \$8,100,000 and \$6,100,000, respectively, was invested by the Intermediate Fund in certificates of deposit.

The Short-Term Fund is committed to immediate liquidity to meet the operating needs of the System campuses and the Hospital. The Short-Term Fund is invested in a money market fund, which in turn invests mostly in U.S. Treasury Securities and repurchase agreements that are collateralized by U.S. Treasury Securities. These funds are all commingled with funds of other investors. Refer to Note 4 for additional information related to the Short-Term Fund.

The credit risk for fixed and variable income securities, for the System Pools, at September 30, 2013 and 2012 is as follows:

September 30, 2013 and 2012

Custodial Credit Risk

Custodial credit risk is the risk that in the event of the corporate failure of the custodian, the investment securities may not be returned.

Investment securities in the System Pools and UAB's separately held investments are registered in the Board's name by the custodial bank as an agent for the System. Other types of investments (e.g. open-ended mutual funds, money market funds) represent ownership interests that do not exist in physical or book-entry form. As a result, custodial credit risk is remote.

Concentration of Credit Risk

Concentration of credit risk is the risk associated with a lack of diversification, such as having substantial investments in a few individual issuers, thereby exposing the organization to greater risks resulting from adverse economic, political, regulatory, geographic, or credit developments.

As previously mentioned, credit risk in each investment pool and UAB's separately held portfolio is managed primarily by diversifying across issuers and limiting the amount of portfolio assets that can be invested in non-investment grade securities. As of September 30, 2013 and 2012, there was no investment in a single issuer that represents 5% or more of

total investments held by any single investment manager of the System Pools or UAB's separately held investment portfolio except for investments issued by the U.S. government and money market investments held by the Short Term Fund.

Interest Rate Risk

Interest rate risk is the risk that the value of fixed income securities will decline because of changing interest rates. The prices of fixed income securities with a longer time to maturity, measured by effective duration, tend to be more sensitive to changes in interest rates and, therefore, more volatile than those with shorter durations. Effective duration is the approximate change in price of a security resulting from a 100 basis point (1 percentage point) change in the level of interest rates. It is not a measure of time. The Board does not have a specific policy relative to interest rate risk. As such, there are no restrictions on weighted average maturity for each portfolio as they are managed relative to the investment objectives and liquidity demands of the investors.

The information presented does not take into account the relative weighting of the portfolio components to the total portfolio. The effective durations for fixed or variable income securities, for the System Pools at September 30, 2013 and 2012 are as follows:

September 30, 2013 and 2012

	ENDOWMENT FUND		PRIME FUND		INTERMEDIATE FUND	
	2013	2012	2013	2012	2013	2012
U.S. Government Obligations	5.6	5.0	5.4	5.5	1.8	1.9
Corporate Bonds	4.2	5.4	4.2	5.2	1.5	1.7
Commingled Bond Funds	1.5	0.6	2.3	1.5	2.3	2.3
Municipal Government Obligations					0.2	1.8
Non-U.S. Bonds					1.5	1.7

There are no fixed or variable income securities in the Short-Term Fund at September 30, 2013 and 2012.

While the Board does not have a specific policy relative to interest rate risk, UAB has historically invested funds outside of the investment pools in fixed income and variable income securities with short maturity terms.

The effective durations for fixed or variable income securities for UAB's separately held investments at September 30, 2013 and 2012 are as follows:

September 30, 2013 and 2012

	2013	2012
Commingled Bond Funds	3.0	2.2
U.S. Government Obligations	1.1	

Investments may also include mortgage pass through securities and collateralized mortgage obligations that may be considered to be highly sensitive to changes in interest rates due to the existence of

prepayment or conversion features. At September 30, 2013 and 2012, the fair market values of these investments in the System Pools are as follows:

September 30, 2013 and 2012

	ENDOWMENT FUND		PRIME FUND		INTERMEDIATE FUND	
	2013	2012	2013	2012	2013	2012
Mortgage Backed Securities	\$	\$	\$	\$	\$ 120,283,662	\$ 50,978,064
Collateralized Mortgage Obligations		428,837		176,195	50,078,274	57,695,598
TOTAL	\$	\$ 428,837	\$	\$ 176,195	\$ 170,361,936	\$ 108,673,662

Mortgage Backed Securities. These securities are issued by the Federal National Mortgage Association (Fannie Mae), Government National Mortgage Association (Ginnie Mae) and Federal Home Loan Mortgage Association (Freddie Mac) and include short embedded prepayment options. Unanticipated prepayments by the obligees of the underlying asset reduce the total expected rate of return.

Collateralized Mortgage Obligations. Collateralized mortgage obligations (CMOs) generate a return based upon either the payment of interest or principal on

mortgages in an underlying pool. The relationship between interest rates and prepayments makes the fair value highly sensitive to changes in interest rates. In falling interest rate environments, the underlying mortgages are subject to a higher propensity of prepayments. In a rising interest rate environment, the opposite is true.

At September 30, 2013 and 2012, the effective durations for these securities held in the System Pools are as follows:

September 30, 2013 and 2012

	ENDOWMENT FUND		PRIME FUND		INTERMEDIATE FUND	
	2013	2012	2013	2012	2013	2012
Mortgage backed securities					0.7	1.7
Collateralized mortgage obligations		2.6		2.7	1.0	1.1

There are no mortgage backed securities or CMOs in the Short Term Fund at September 30, 2013 and 2012.

There are no mortgage backed securities or CMOs in UAB's separately held investments at September 30, 2013 and 2012.

Foreign Currency Risk

The strategic asset allocation policy for the Endowment Fund, the Prime Fund, and UAB's separately held investments includes an allocation to non-United States equity and fixed income securities. Each international equity manager must hold a minimum of 30 individual stocks with equity holdings in a single company remaining below 8% of the investment manager's portfolio, measured at market value. Currency hedging of foreign bonds and stocks is allowed under System policy. As of September 30, 2013 and 2012, all foreign investments in the System Pools and UAB's separately held investments are denominated in U.S. dollars and are in international commingled funds, which in turn invest in equity securities and bonds of foreign issuers except for approximately \$1.0 and \$8.9 million of foreign bonds denominated in U.S. dollars and held by the Intermediate Fund at September 30, 2013 and 2012, respectively.

Securities Lending

Board policies permit security lending as a mechanism to augment income. Loans of the securities are required to be collateralized by cash, letters of credit or securities issued or guaranteed by the U.S. Government or its agencies. The collateral must equal at least 102% of the current market value of the loaned securities. Securities lending contracts must state acceptable collateral for securities loaned, duties of the borrower, delivery of loaned securities and acceptable investment of the collateral.

At September 30, 2013 and 2012, there were no securities on loan from the investment pools.

Joint Ventures

UAB accounts for its ownership of the PLTF as a joint venture, using the equity method in the amount of approximately \$50,450,000 and \$38,913,000 at September 30, 2013 and 2012, respectively. See note 20 for further discussion of the PLTF.

(6) Accounts Receivable

The composition of accounts receivable at September 30, 2013 and 2012 is summarized as follows:

	2013	2012 (RESTATED)
Patient care	\$ 316,232,867	\$ 275,701,352
Receivables from sponsoring agencies	59,222,421	57,633,120
Student accounts	21,573,744	12,621,641
Other	26,063,161	21,157,202
	\$ 423,092,193	\$ 367,113,315
Less: Provision for doubtful accounts from patient care	159,237,478	149,925,173
Less: Provision for doubtful accounts from student accounts	1,556,559	1,537,193
Less: Provision for doubtful accounts other	1,546,472	1,513,680
Total accounts receivable	\$ 260,751,683	\$ 214,137,269

(7) Loans and Pledges Receivable

The composition of loans and pledges receivable at September 30, 2013 and 2012, is summarized in the table.

The principal repayment and interest rate terms of federal and university loans vary considerably. The allowance for doubtful accounts only applies to University-funded notes and the University portion of federal student loans, since the University is not ob-

ligated to fund the federal portion of uncollected student loans. Federal loan programs are funded principally with federal advances to UAB under the Perkins and various health professions loan programs.

Pledges for permanent endowments do not meet eligibility requirements, as defined by GASB Statement No. 33, until the related gift is received. Due to uncertainties with regard to their realization and valuation, bequest intentions and other conditional promises are not recognized as assets until the specified conditions are met.

	2013	2012
LOANS RECEIVABLE:		
Federal loan program	\$ 17,367,247	\$ 17,802,292

Less: current portion	8,315,206	7,429,210
Total gift pledges, noncurrent	\$ 11,337,496	\$ 12,121,941

(8) Capital Assets

Capital assets activity for the years ended September 30, 2013 and 2012 is summarized on the following 2 tables:

Net interest costs capitalized for the University and Component Units in 2013 and 2012, respectively, were approximately \$2,717,000 and \$3,049,000 (net of \$1,240,000 and \$912,000 investment earnings in 2013 and 2012, respectively). There were no net interest costs capitalized in 2013 or 2012 for the Hospital.

(9) Long-Term Debt

Long-term debt activity for the years ended September 30, 2013 and 2012 is summarized as follows:

A portion of UAB's long term debt has been issued with variable interest rates. The interest rates are determined in accordance with the individual related indenture of the related outstanding debt. UAB's bonds are collateralized by pledged revenues as defined in the applicable indentures.

See Note 11 for information regarding the pledged revenues, which collateralize certain outstanding debt.

The University defeased certain indebtedness by depositing funds in escrow trust accounts sufficient to provide for the subsequent payment of principal and interest on the defeased indebtedness. Under the trust agreements, all funds deposited in the trust accounts are invested in obligations of the U.S. government. Neither the assets of the trust accounts nor the defeased indebtedness are included in the accompanying statement of net assets as of September 30, 2013 and 2012. The principal outstanding on the defeased indebtedness at September 30, 2013 and 2012, respectively, was \$49,840,000 and \$0, which all related to the University.

In July 2012, the Hospital refinanced two series of its hospital revenue bonds: the Series 2008B Bonds,

which were variable rate demand bonds (VRDOs) with a principal balance of \$109,930,000 collateralized by a letter of credit from Bank of America (BA); and the Series 2007A Bonds, which were variable rate obligations with a principal balance of \$40,000,000. The Series 2008B Bonds refunded obligations that provided funding for the North Pavilion project. The Series 2007A Bonds provided interim financing for the Highlands acquisition. The Series 2007A Bonds had an original maturity of October 1, 2012 if the debt was not refinanced. To accomplish this refinancing, the Hospital issued its 2012A, 2012B, and 2012C hospital revenue bonds in the amounts of \$20,580,000, \$65,000,000, and \$65,000,000, respectively. The issuance of the 2012 bonds allowed the Hospital to reduce its borrowing costs and refinance certain obligations on a long-term basis. These bonds were issued at a discount of \$215,378 resulting in total cash received of \$150,364,622.

The 2012B and 2012C bonds include a demand obligation feature that allows the bondholder to tender the bonds back to the Hospital at any date. The Hospital has obtained a letter of credit (“LOC”) in the aggregate amount of the bonds to repay any tendered amounts in the event the remarketing agent is unable to resell the bonds in the allotted time (7 days from the notice of intent to tender). The LOC for 2012B bond expires on July 31, 2015 and the LOC for the 2012C bonds expire on July 31, 2017. Under the terms of the 2012B LOC, no principal amounts are due during the remarketing period, which is 367 days following the date of any draw on the LOC. Thereafter, any amount drawn is payable in quarterly installments over a two-year period. Under the terms of the 2012C LOC, no principal amounts are due for one year subsequent to the date of any draw on the LOC. Thereafter, any amount drawn converts to a term loan that is payable in quarterly installments over a two-year period.

Similarly, the Series 2008B bonds, which were repaid during 2012 with proceeds from the 2012 offering, included a demand obligation feature that allowed the bondholder to tender the bonds back to the Hospital at any date. The Hospital obtained a letter of credit (LOC) in the aggregate amount of the bonds to repay any tendered amounts in the event the remarketing agent is unable to resell the bonds in the allotted time (7 days from the notice of intent to tender).

In March 2013, the University issued \$19,195,000 in Series 2013A-1 General Revenue Bonds. The bonds pay interest at a rate of 1.1% with principal due annually through October 1, 2020. The proceeds of this offering are being used for the purposes of constructing facilities, additions, and improvements at UAB; funding capitalized interest on a portion of the Series 2013A-1 Bonds through October 1, 2015; and paying costs and expenses associated with this issue. In March 2013, the University issued \$72,595,000 in Series 2013A-2 General Revenue Bonds. The bonds pay interest at varying rates of 2.25% to 5.0% with principal due annually through October 1, 2043. The proceeds of this offering are being used for the purposes of constructing facilities, additions, and improvements at UAB; funding capitalized interest on a portion of the Series 2013A-2 Bonds through

October 1, 2015; and paying costs and expenses associated with this issue. In March 2013, the University issued \$45,190,000 in Series 2013B General Revenue Bonds. The bonds pay interest at a rate of 1.99% with principal due annually through October 1, 2029. The proceeds of this offering are being used for the purposes of advance refunding Series 2003A General Revenue Bonds; and paying costs and expenses associated with this issue. In March 2013, the University issued \$3,095,000 in Series 2013C General Revenue Bonds. The bonds pay interest at varying rates of 1.0% to 1.45% with principal due annually through October 1, 2019. The proceeds of this offering are being used for the purposes of advance refunding Series 2003A General Revenue Bonds; and paying costs and expenses associated with this issue. These bonds were issued at a premium of \$2,104,514 resulting in total cash received of \$142,179,514.

In August 2013, the University issued \$20,425,000 in Series 2013D-1 General Revenue Bonds. The bonds pay interest at a rate of 1.97% with principal due annually through October 1, 2023. The proceeds of this offering are being used for the purposes of constructing housing facilities, as well as purchasing two existing housing facilities; funding capitalized interest on a portion of the Series 2013D-1 Bonds through October 1, 2015; and paying costs and expenses associated with this issue. In August 2013, the University issued \$78,325,000 in Series 2013D-2 General Revenue Bonds. The bonds pay interest at varying rates of 4.0% to 5.0% with principal due annually through October 1, 2043. The proceeds of this offering are being used for the purposes of constructing housing facilities, as well as purchasing two existing housing facilities; funding capitalized interest on a portion of the Series 2013D-2 Bonds through October 1, 2015; and paying costs and expenses associated with this issue. These bonds were issued at a premium of \$1,141,688 resulting in total cash received of \$99,891,688.

UAB’s general revenue bonds and the Hospital Series 2004A, 2006A, 2008A, 2012A, 2012B, and 2012C Revenue Trust Indentures contain certain restrictive financial covenants. UAB’s management believes that it was in compliance with respect to these covenants at September 30, 2013 and 2012.

(10) Other Noncurrent Liabilities

The activity with respect to other noncurrent liabilities for the year ended September 30, 2013 and 2012, is as follows for UAB:

September 30, 2013

	BEGINNING BALANCE (RESTATED)	ADDITIONS	DEDUCTIONS	ENDING BALANCE
Federal Advances - loan funds	\$ 14,925,390	\$ 161,028	\$ (358,941)	\$ 14,727,477

TOTAL PLEDGED REVENUES	\$ 417,457,409	\$ 399,813,641

(12) Employee Benefits

Retirement and Pension Plans

Most employees of the University, the Hospital, and UABRF participate in the Teachers' Retirement System of Alabama (TRS), a cost-sharing, multiple-employer public retirement system. Certain employees also participate in an optional 403(b) plan (403(b) Plan). TRS is a defined benefit plan and the 403(b) Plan is a defined contribution plan. The TRS was established as of September 15, 1939, under the provisions of Act 419 of the Legislature of 1939 for the purpose of providing retirement allowances and other specified benefits for qualified persons employed by State-supported educational institutions. The responsibility for the general administration and operation of the TRS is vested in its Board of Control.

Participants in TRS who retire at age 60 with 10 years of credited service, or after completing 25 years of credited service, regardless of age, are entitled to an annual benefit, payable monthly for life. Service retirement benefits are calculated by three methods, with the participants receiving payments under the method which yields the highest monthly benefit. These methods include (1) minimum guaranteed, (2) money purchase, or (3) formula. Under the formula method, participants are allowed 2.0125% of their final average salary (average of three highest years of annual compensation during the last 10 years of service) for each year of service. A participant terminating before reaching retirement age, but after completing 10 years of credited service, is eligible for a vested allowance at age 60 provided accumulated employee contributions are not withdrawn. TRS also provides death and disability benefits.

During 2013, TRS created a Tier 2 Defined Benefit plan for all participants hired on or after January 1, 2013. New participants pay lower contribution rates, but will not be able to draw a retirement benefit until they reach age 62. Upon the creation of the Tier 2 Defined Benefit plan, all existing TRS participants became Tier 1 participants keeping the same benefits as before the creation of Tier 2.

Covered employees are required by statute to contribute to TRS. UAB, as the employer, contributes to TRS. The contribution requirements for fiscal years 2013, 2012, and 2011, respectively, were approximately \$138,146,000, \$137,065,000, and \$134,826,000, which consisted of \$79,253,000, \$79,548,000, and \$96,297,000 from UAB and \$58,893,000, \$57,607,000, and \$38,529,000 from employees. UAB's contribution rate for the year ended September 30, 2013 was 10.08% for Tier 1 covered employees and 9.44% for Tier 2 employees. UAB's contribution was 10% of salaries and wages for covered employees in 2012 and 12.51% in 2011. Tier 1 covered employees (except for law enforce-

ment employees) were required by statute to contribute 7.5% in 2013 and 7.25% in 2012 of earned compensation to TRS. The contribution by Tier 1 law enforcement employees was 8.5% in 2013 and 8.25% in 2012 of earned compensation. Tier 2 covered employees (except for law enforcement employees) were required by statute to contribute 6.0% of earned compensation to TRS in 2013. The contribution by Tier 2 law enforcement employees was 7.0% of earned compensation in 2013. All regular employees of UAB are members of TRS, with the exception of temporary employees who, by definition, are those employees hired for a predetermined period of employment of less than one year and employees working less than one half of a regular schedule.

The actuarial accrued liability ("AAL"), which is the actuarial present value of credited projected benefits, is a standardized disclosure measure of the present value of pension benefits, adjusted for the effects of projected salary increases and step-rate benefits, estimated to be payable in the future as a result of employee service to date. The actuarial value of assets, which is the actuarial present value of assets, is a standardized disclosure method of the present value of accumulated assets, adjusted for projected investment performance and contributions. TRS does not make separate measurements of assets and the AAL for individual employers. The AAL and the actuarial valuation of assets at September 30, 2012 (the most recent valuation date) for TRS as a whole, determined through actuarial valuations performed as of that date, were \$28.3 billion and \$18.8 billion, respectively, resulting in an under-funded AAL of \$9.5 billion. Complete financial presentation and disclosure of the financial position and activities of the TRS are presented in the September 30, 2012 annual financial report of TRS. That report is publicly available and may be obtained by contacting TRS.

As previously noted, some employees participate in the optional 403(b) Plan, which is a defined contribution plan. In defined contribution plans, benefits depend solely on amounts contributed plus investment earnings. All full-time regular monthly employees are eligible to participate from the date of employment. UAB contributes a matching amount of up to 5% of total salaries for participating employees. UAB's contribution is funded as it accrues and, along with that of the employee, is immediately and fully vested. The contributions for 2013 and 2012, respectively, excluding employee amounts not eligible for matching, were approximately \$34,307,000 and \$31,357,000 which included approximately \$17,154,000 and \$15,678,000 each from UAB and its employees.

The University, the Hospital, and UABRF total salaries and wages for fiscal year 2013 and 2012, respectively, were approximately \$967,667,000 and \$921,253,000. Total salaries and wages during fiscal years 2013 and 2012 for covered employees participating in TRS were approximately \$786,243,000

and \$794,579,000, respectively. Total salaries and wages during fiscal years 2013 and 2012 for covered employees participating in the 403(b) Plan were approximately \$360,771,000 and \$327,589,000, respectively.

Triton sponsors a 401(k) plan covering substantially all employees who have completed at least six months of service. Information regarding this benefit is presented in Triton's annual report.

The LLC sponsors a voluntary 403(b) retirement plan for eligible employees. The 403(b) plan is a voluntary, defined-contribution, tax-deferred as well as Roth after tax plan governed by Internal Revenue Code 403(b). Eligible employees can choose between both TIAA and VALIC for investments. Employees are vested after 3 years of employment. Eligibility for matching is for all full-time and part-time regular, twelve-hour shift, and weekend staff employees.

Compensated Absences

Certain UAB employees accumulate vacation and sick leave at varying rates depending upon their years of continuous service and their payroll classification, subject to maximum limitations. Upon termination of employment, employees are paid all unused accrued vacation at their regular rate of pay up to a designated maximum number of days. In accordance with GASB Statement No. 16, *Accounting for Compensated Absences*, the financial statements include accruals of approximately \$74,064,000 and \$44,705,000 as of September 30, 2013 and 2012, respectively, for accrued vacation pay and salary-related payments associated with vacation pay. There is no such accrual recognized for sick leave benefits because there is no terminal cash benefit available to employees for accumulated sick leave.

(13) Other Postemployment Benefits

UAB offers other postemployment health care benefits (OPEB) to all employees who officially retire from UAB. Health care benefits are offered through the Alabama Retired Education Employees Health Core Trust Plan (PEEHIP) with TRS or certain retired employees may elect to continue to participate in UAB's group health plan until they are eligible for Medicare by paying the full cost of the plan premium. Retired employees age 65 or older who are eligible for Medicare must enroll in the Medicare Coordinated Plan under which Medicare is the primary insurer and UAB's health care plan becomes the secondary insurer. Despite the availability of the UAB plan, most retirees elect to participate in the PEEHIP with TRS, in which case the retirees pay a portion of the PEEHIP premium, with UAB paying an allocation towards the cost of retiree coverage.

Certain retirees may also elect to continue their

basic term life insurance coverage and accidental death and dismemberment insurance up to certain maximum amounts. The retirees pay the full amount of the premiums in such cases. Retirees are not eligible for tuition assistance benefits themselves. However, their unmarried dependent children may qualify in some cases.

PEEHIP is a cost-sharing multiple-employer defined benefit OPEB plan administered by the Public Education Employees Health Insurance Board. PEEHIP offers a basic hospital/medical plan that provides basic medical coverage for up to 365 days of care during each hospital confinement. The basic hospital/medical plan also provides for physicians' benefits, outpatient care, prescription drugs, and mental health benefits. Major medical benefits under the basic hospital/medical plan are subject to a lifetime contract maximum of \$1,000,000 for each covered individual. The financial report for PEEHIP can be obtained by contacting TRS. The Code of Alabama 1975, Section 16-25-A-8 provides authority to set the contribution requirements for retirees and employers. The required contribution rates of retirees are as follows as of September 30, 2013 and 2012, respectively:

Retired Member Rates

- Individual Coverage/Non-Medicare Eligible - \$151
- Family Coverage/Non-Medicare Eligible Retired Member and Non-Medicare Eligible Dependent(s) - \$391
- Family Coverage/Non-Medicare Eligible Retired Member and Dependent Medicare Eligible - \$250
- Individual Coverage/Medicare Eligible Retired Member - \$10
- Family Coverage/Medicare Eligible Retired Member and Non-Medicare Eligible Dependent(s) - \$250
- Family Coverage/Medicare Eligible Retired Member and Dependent Medicare Eligible - \$109

The required contribution rates of the employer were \$336 and \$370 per employee per month in the years ended September 30, 2013 and 2012, respectively. 100% of 2013 and 2012 contributions were paid in 2013 and 2012, respectively. UAB contributed \$16,071,600 and \$16,732,900 to PEEHIP in 2013 and 2012, respectively. The required contribution rate is determined by PEEHIP in accordance with State statute.

The UAB Plan is considered a single-employer plan and consists of hospital benefits, major medical benefits, a prescription drug program and a basic term life insurance up to an established maximum policy limit. The health care benefits cover medical and hospitalization costs for retirees and their

dependents. The portion of the UAB plan related to health care may be amended by the approval of the President of UAB upon recommendation from the Benefits Committee. The portion of the UAB plan related to the life insurance may be amended by the System.

Employees included in the actuarial valuation include active employees, retirees and disabled employees enrolled in the medical plan and retirees not enrolled in the medical plan with retiree life insurance. Expenditures for postretirement health care benefits are paid monthly on a pay-as-you-go basis.

In accordance with GASB Statement No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions*, UAB accrued an additional \$4,288,767 and \$7,142,350 in retiree healthcare and benefit expense during the years ended September 30, 2013 and 2012, respectively.

The UAB Plan does not issue a stand-alone financial report.

UAB's annual retiree health and life insurance benefit expense and related information for the years ended September 30, 2013 and 2012 is as follows:

		2013		2012		2011
Annual required contribution	\$	9,194,860	\$	10,342,567	\$	6,539,591
Interest on obligations for retiree benefits		1,127,669		728,677		560,001
Adjustment to annual required contribution		(859,231)		(555,218)		(367,986)
Annual retiree benefit costs		9,463,298		10,516,026		6,731,606
UAB Contributions		(5,174,531)		(3,373,676)		(4,914,996)
Increase in obligations for retiree benefits		4,288,767		7,142,350		1,816,610
Obligations for retiree benefits, beginning of year		16,109,549		8,967,199		7,150,589
Total obligations for retiree benefits, end of year	\$	20,398,316	\$	16,109,549	\$	8,967,199

The annual retiree benefit cost, percentage of the annual retiree benefit cost contributed to the retiree benefit plan and the net obligation for retiree ben-

efits for UAB for year ended September 30, 2013 and 2012 are as follows:

		2013		2012		2011
Annual retiree benefit cost	\$	9,463,298	\$	10,516,026	\$	6,731,606
Percentage of annual cost contributed		54.68%		32.08%		73.01%
Net obligation to the retiree benefit plan	\$	20,398,316	\$	16,109,549	\$	8,967,199

Funded Status

Actuarial valuations represent a long-perspective and involve estimates of the value of report amounts and assumptions about the probability of occurrence of events into the future. Examples include assumptions about future employment, mortality, investment return and health care cost trends. Actuarially determined amounts are subject to peri-

odic revisions as actual rates are compared with past expectations and new estimates are made about the future.

The funded status of the plan as of October 1, 2011 and 2012 was as follows:

		2013		2012		2011
Actuarial accrued liability	\$	46,446,404	\$	44,358,077	\$	52,061,639
Actuarial value of plan assets						
Unfunded actuarial accrued liability	\$	46,446,404	\$	44,358,077	\$	52,061,639
Funded ratio		Zero		Zero		Zero
Covered payroll	\$	967,667,454	\$	921,253,387	\$	887,356,263
Unfunded actuarial accrued liability as a percentage of covered payroll		4.80%		4.81%		5.87%

Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based upon the plan as understood by UAB and plan members, and include types of benefits provided at the time of each valuation and the historical cost pattern of sharing of benefit costs between UAB and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

Significant actuarial methods and assumptions used in the valuation were:

- actuarial valuation date, October 1, 2011
- actuarial cost method-projected unit cost method
- assumed return on investment of 7% per year, based on the estimated return on UAB's assets expected to be used to finance benefits;
- health care cost trend rate 9.5% and 7.8% for the years ended September 30, 2012 and September 30, 2011, respectively, reduced by increments to an ultimate rate of 5.0% over years through 2018;
- amortization of the initial unfunded actuarial liability over 30 years on a level percent of pay method with payroll growth rate of 3.25%

(14) Federal Direct Student Loan Program

The Federal Direct Student Loan Program (FDSLPL) was established under the Higher Education Act of 1965, as amended in the Student Loan Reform Act of 1993. The FDSLPL enables an eligible student or parent to obtain a loan to pay for the student's cost of attendance directly through the university rather than through private lenders. UAB began participation in the FDSLPL on July 1, 1994. As a university qualified to originate loans, UAB is responsible for handling the complete loan process, including funds management, as well as promissory note functions. UAB is not responsible for collection of these loans. During the years ended September 30, 2013 and 2012, respectively, UAB disbursed approximately \$130,081,000 and \$130,039,000 under the FDSLPL.

(15) Grants and Contracts

At September 30, 2013 and 2012, UAB had been awarded approximately \$371,572,000 (unaudited) and \$366,519,000 (unaudited) in grants and contracts which had not been expended. These awards, which represent commitments of sponsors to provide funds for specific research, training, and service projects, have not been reflected in the financial statements.

In addition, during fiscal year 2009, the University began receiving and expending federal funding under the American Recovery and Reinvestment Act (ARRA), primarily in the form of sponsored research grants and State Fiscal Stabilization Funds. At September 30, 2013 and 2012, UAB had been awarded approximately \$7,153,000 (unaudited) and \$12,459,000 (unaudited) in ARRA funding which had not been expended. These awards have not been reflected in the financial statements.

(16) Net Patient Service Revenue

The Hospital has agreements with governmental and other third-party payors that provide for reimbursement to the Hospital at amounts different from its established rates. Contractual adjustments under third-party reimbursement programs represent the difference between the Hospital's billings at established rates for services and amounts reimbursed by third-party payors. A summary of the basis of reimbursement with major third-party payors follows:

Medicare—Substantially all acute-care services rendered to Medicare program beneficiaries are paid at prospectively determined rates. These rates vary according to patient classification systems that are based on clinical, diagnostic, and other factors. Additionally, the Hospital is reimbursed for both its direct and indirect medical education costs (as defined), principally based on per-resident prospective payment amounts and certain adjustments to prospective rate-per-discharge operating reimbursement payments. The Hospital generally is reimbursed for certain retroactively settled items at tentative rates with final settlement determined after submission of annual cost reports by the Hospital and audits by the Medicare fiscal intermediary. The Hospital's cost reports have been audited and settled for all fiscal years through 2006. Revenue from the Medicare program accounted for approximately 26% of the Hospital's net patient service revenue for the years ended September 30, 2013 and 2012.

Blue Cross—Inpatient services rendered to Blue Cross subscribers are paid at a prospectively determined per diem rate. Outpatient services are reimbursed at a prospectively determined rate or under a cost reimbursement methodology. The method of reimbursement is determined by the procedures that are performed. For outpatient services reimbursed under a cost reimbursement methodology, the Hospital is reimbursed at a tentative rate with a final settlement determined after submission of annual cost reports by the Hospital and audits thereof by Blue Cross. The Hospital's Blue Cross cost reports have been audited and settled for all fiscal years through 2009. Revenue from the Blue Cross program accounted for approximately 30% and 31% of the Hospital's net patient service revenue for each of the years ended September 30, 2013 and 2012, respectively.

Medicaid—Inpatient services rendered to Medicaid program beneficiaries are reimbursed at all-inclusive prospectively determined per diem rates. Outpatient services are reimbursed based on an established fee schedule. The Hospital participates in the Alabama Medicaid Plan and therefore, also receives supplemental payments based on formulas established by

the Alabama Medicaid Agency. The net benefit associated with the Hospital's essential provider designation, totaling approximately \$60,558,000 and \$58,907,000 in 2013 and 2012, respectively, is included in net patient service revenue in the accompanying statements of revenues, expenses, and changes in net position. There can be no assurance that the Hospital will continue to qualify for future participation in this program or that the program will not ultimately be discontinued or materially modified.

Revenue from the Medicaid program accounted for approximately 16% and 15% of the Hospital's net patient service revenue for the years ended September 30, 2013 and 2012, respectively.

Other—The Hospital has also entered into payment agreements with certain commercial insurance carriers, health maintenance organizations, and preferred provider organizations. The bases for payments to the Hospital under these agreements include discounts from established charges, capitation, and prospectively determined daily and case rates.

The composition of Hospital operating revenue follows:

	2013	2012
Gross Patient Service Revenue	\$ 4,595,650,176	\$ 4,143,237,574
Less Provision for Contractual and Other Adjustments	(3,206,091,880)	(2,851,491,622)
Less Provision Bad Debts	(251,725,723)	(236,995,097)
Net Patient Service Revenue	\$ 1,137,832,573	\$ 1,054,750,855
Capitation Revenue	56,902,605	64,068,261
Other Operating Revenue	91,832,795	83,855,212
TOTAL HOSPITAL SALES REVENUE	\$ 1,286,567,972	\$ 1,202,674,328

(17) Charity Care

The Hospital maintains records to identify and monitor the level of charity care it provides. These records include the amount of charges foregone for

services and supplies furnished under its charity care policy, the estimated cost of those services, and supplies and equivalent service statistics. The following information measures the level of charity care provided during the years ended September 30, 2013 and 2012:

	2013	2012
Approximate charges forgone, based on established rates	\$ 256,380,000	\$ 216,552,000
Percentage of charity charges to total charges	5.6%	5.2%

(18) Credit Risk

The Hospital grants credit without collateral to its patients, most of whom are local residents and are insured under third-party payor agreements. The mix of receivables from patients and third-party payors at September 30, 2013 and 2012 follows:

	2013	2012
Other	45%	43%
Medicare	19	20
Blue Cross	27	28
Medicaid	9	9
	100%	100%

(19) Construction Commitments and Financing

UAB has contracted for the construction and renovation of several facilities. At September 30, 2013 and 2012, the estimated remaining cost to complete the construction and renovation of these facilities was approximately \$191,823,000 (unaudited) and \$109,756,000 (unaudited), respectively, which is expected to be financed from private gifts, grants, bond proceeds, and UAB reserves.

(20) Risk Management and Self-Insurance

UAB manages risks related to medical malpractice, general liability, and employee health care through a combination of self-insurance, risk pooling arrangements, and commercial insurance coverage.

UAB's medical malpractice liability is managed by PLTF, a professional liability trust fund. PLTF func-

tions as a risk-sharing vehicle for UAB and more than ten nongovernmental organizations. PLTF covers liabilities of the covered parties, including UAB, arising from reported claims, claims that are incurred but not reported, and future costs of handling these claims. The liabilities are generally based on present value actuarial valuations discounted using interest rates from 2% to 5%. The discount rate used in both 2013 and 2012 was 2%. The associated risks of claims are subject to aggregate limits, with excess liability coverage provided by independent insurers to protect participants against losses should a claim arise that exceeds PLTF coverage limits. Although UAB is the sponsor of PLTF, it is not the predominant participant in the fund.

The PLTF's policy committee establishes the premium rate of participants based on recommendations from consulting actuaries and considering the assumption of risk from the PLTF's date of inception. Premiums paid to the PLTF are provided by UAB, HSF, and other participants. In addition, certain legal and administrative services are provided to the PLTF by the University of Alabama System.

The PLTF agreement requires 10% of all PLTF assets to be held in liquid assets. At September 30, 2013 and 2012, the liquid assets of the PLTF, as defined by the agreement, were in compliance with the agreement.

General liability is subject to various claims and aggregate limits, with excess liability coverage provided by an independent insurer. General liability and employee health care claims and expenses are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. Those losses include an estimate of claims that have been incurred but not reported and the future costs of handling claims. The general liability is generally based on actuarial valuations and is reported at present value. The discount rate used for the general liability was 2% in both 2013 and 2012. Changes in the total self-insured liabilities for the years ended September 30, 2013 and 2012 are presented as follows for UAB:

SELF INSURED LIABILITIES	2013	2012 (RESTATED)
Balance, beginning of year	\$ 14,531,084	\$ 9,360,771
Claims incurred and changes in estimates	72,076,282	75,543,057
Claim payments	(73,929,226)	(70,372,744)
BALANCE, END OF YEAR	\$ 12,678,140	\$ 14,531,084

(21) Commitments and Contingencies

UAB has sovereign immunity and is, therefore, in the opinion of UAB counsel, immune to ordinary tort actions including those based on medical malpractice or general injury to patients. Consequently, while UAB is sometimes named as defendant in malpractice actions and other actions for injuries arising in the Hospital, it has consistently been dismissed from those lawsuits on the basis of the sovereign immunity doctrine. That doctrine also protects UAB from vicarious liability arising from the negligence of its employees. To the extent that UAB employees are sued in their individual capacity for action related to their official duties within the line and scope of their employment, UAB has defended those actions and paid for any resulting costs through its self-insured trust fund. While UAB is not aware of any impending threat to this doctrine, UAB is a named insured under the terms of the PLTF and GLTF and excess insurance purchased from commercial companies (Note 19). There are some exceptions to the sovereign immunity doctrine, most notably federal court cases arising under the federal constitution or federal statutes.

UAB is engaged in various legal actions in the ordinary course of business. Management does not believe the ultimate outcome of these actions will have a

material adverse effect on the financial statements. However, the settlement of legal actions is subject to inherent uncertainties and it is possible that such outcomes could differ materially from management's current expectations.

Amounts received or receivable from grantor agencies are subject to audit and adjustments by such agencies, principally the United States Government. Any disallowed claims, including amounts already collected, may constitute a liability of UAB. The amount, if any, of expenditures that may be disallowed by the grantor cannot be determined at this time, although UAB expects any such amounts to be immaterial.

The University and UABRF entered into a services agreement in November 2009. The agreement requires UABRF to undertake and manage UAB's interest in a joint venture for the purpose of implementing a drug development program (DDP) through investigation and evaluation of promising proteins and chemical compounds. The agreement was never funded and was terminated effective July 31, 2013.

In addition, in November 2009, UABRF (on behalf of UAB), SRI and Jubilant Organosys, Ltd. (Jubilant) entered into a joint venture to implement a drug development program to discover new pharmaceutical compounds for human and veterinary use (drug development program). The joint venture was terminated effective July 31, 2013.

(22) Operating Expenses by Function

Total operating expenses by functional classification for the years ended September 30, 2013 and 2012 are as follows for UAB:

September 30, 2013	SALARIES, WAGES, AND BENEFITS	SUPPLIES AND SERVICES	DEPRECIATION AND AMORTIZATION	SCHOLARSHIPS AND FELLOWSHIPS	TOTAL
Instruction	\$ 232,225,126	\$ 23,821,286			\$ 256,046,412
Research	158,835,071	85,187,000			244,022,071
Public service	56,566,590	27,450,568			84,017,158
Academic support	136,911,290	31,743,457			168,654,747
Student services	17,266,826	11,776,975			29,043,801

(23) Segment Reporting

As discussed in Note 1, UAB's two significant identifiable activities that have bonds outstanding where revenue is pledged in support of the bonds are the University and the Hospital.

Condensed financial statement information related to the University and Hospital for the years ended September 30, 2013 and 2012 is as follows:

UNIVERSITY	2013	2012 (RESTATED)

(25) Recently Issued Pronouncements

The GASB issued Statement No. 60, *Accounting and Financial Reporting for Service Concession Arrangements* (GASB 60), in November 2010. The objective of this Statement is to improve financial reporting by addressing issues related to service concession arrangements (SCAs), which are a type of public-private or public-public partnership. As used in this Statement, an SCA is an arrangement between a transferor (a government) and an operator (governmental or nongovernmental entity) in which (1) the transferor conveys to an operator the right and related obligation to provide services through the use of infrastructure or another public asset (a “facility”) in exchange for significant consideration and (2) the operator collects and is compensated by fees from third parties. The requirements of this Statement are effective for financial statements for periods beginning after December 15, 2011. The adoption of this statement had no material impact on UAB’s financial statements.

The GASB issued Statement No. 61, *The Financial Reporting Entity: Omnibus—an amendment of GASB Statements No. 14 and No. 34*, in November 2010. The objective of this Statement is to improve financial reporting for a governmental financial reporting entity. The requirements of Statement No. 14, *The Financial Reporting Entity*, and the related financial reporting requirements of Statement No. 34, *Basic Financial Statements and Management’s Discussion and Analysis for State and Local Governments*, were amended to better meet user needs and to address reporting entity issues that have arisen since the issuance of those Statements. This Statement modifies certain requirements for inclusion of component units in the financial reporting entity. This Statement also amends the criteria for reporting component units as if they were part of the primary government (that is, blending) in certain circumstances. Also, additional reporting guidance is provided for blending a component unit if the primary government is a business-type entity that uses a single column presentation for financial reporting. The provisions of this Statement are effective for financial statements for periods beginning after June 15, 2012. Refer to Note 3 for the discussion of the impact that the adoption of this statement had on UAB’s financial statements.

The GASB issued Statement No. 62, *Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements*, in December 2010. The objective of this Statement is to incorporate into the GASB’s authoritative literature certain accounting and financial reporting guidance that is included in FASB Statements and Interpretations, Accounting Principles Board Opinions and AICPA Accounting Research Bulletins issued on or before November 30, 1989, which do not conflict with or contradict GASB pronouncements. This Statement also supercedes GASB Statement No. 20, *Accounting and Financial Reporting for Proprietary Funds and Other Governmental Entities That Use Proprietary Fund Accounting*, thereby eliminating the election provided in paragraph 7 of that Statement for enterprise funds and business-type activities to apply post-November 30, 1989 FASB Statements and Interpretations that do not conflict with or contradict GASB pronouncements. However, those entities can continue to apply, as other accounting literature, post-November 30, 1989 FASB pronouncements that do not conflict with or contradict GASB pronouncements, including this Statement. The provisions of this Statement are effective for financial statements for periods beginning after December 15, 2011. The adoption of this statement had no material impact on UAB’s financial statements.

The GASB issued Statement No. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position* (GASB 63), in June 2011. The objective of this Statement is to provide financial reporting guidance for deferred outflows of resources and deferred inflows of resources. Concept Statement No. 4, *Elements of Financial Statements*, introduced and defined those elements as a consumption of net assets by the government that is applicable to a future period, and an acquisition of net assets by the government that is applicable to a future reporting period, respectively. Previous financial reporting standards do not include guidance for reporting those financial statement elements, which are distinct from assets and liabilities. GASB 63 also renames the measure “net assets” to be “net position”. The provisions of this Statement are effective for financial statements for periods beginning after December 15, 2011. Refer to Note 3 for the discussion of the impact that the adoption of this statement had on UAB’s financial statements.

The GASB issued Statement No. 64, *Derivative*

Instruments: Application of Hedge Accounting Termination Provisions – an amendment of GASB Statement No. 53 (GASB 64), in June 2011. The objective of this Statement is to clarify whether an effective hedging relationship continues after the replacement of a swap counterparty or swap counterparty's credit support provider. This Statement sets forth criteria that establish when the effective hedging relationship continues and hedge accounting should continue to be applied. The provisions of this Statement are effective for financial statements for periods beginning after June 15, 2011. Since the University does not hold any derivative instruments, GASB 64 did not have an impact on the University's financial statements.

The GASB issued Statement No. 65, *Items Previously Reported as Assets and Liabilities* (GASB 65), in March 2012. This Statement establishes accounting and financial reporting standards that reclassify, as deferred outflows of resources or deferred inflows of resources, certain items that were previously reported as assets and liabilities and recognizes, as outflows of resources or inflows of resources, certain items that were previously reported as assets and liabilities. The provisions of this Statement are effective for financial statements for periods beginning after December 15, 2012. Refer to Note 3 for the discussion of the impact that the adoption of this statement had on UAB's financial statements.

The GASB issued Statement No. 66, *Technical Corrections – 2012 – an amendment of GASB Statements No. 10 and No. 62* (GASB 66), in March 2012. The objective of this Statement is to improve accounting and financial reporting for a governmental financial reporting entity by resolving conflicting guidance that resulted from the issuance of two pronouncements, Statements No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, and No. 62, *Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 and AICPA Pronouncements*. The provisions of this Statement are effective for financial statements for periods beginning after December 15, 2012. The University is currently evaluating the impact, if any, that GASB 66 will have on its financial statements.

The GASB issued Statement No. 67, *Financial Reporting for Pension Plans – an amendment of GASB Statement No. 25* (GASB 67), in June 2012. The objective of this Statement is to improve financial reporting by state and local governmental pen-

sion plans. This Statement is effective for financial statements for fiscal years beginning after June 15, 2013. The University is currently evaluating the impact, if any, that GASB 67 will have on its financial statements.

The GASB issued Statement No. 68, *Financial Reporting for Pension Plans – an amendment of GASB Statement No. 27* (GASB 68), in June 2012. The objective of this Statement is to improve financial reporting by state and local governmental pension plans. This Statement is effective for financial statements for fiscal years beginning after June 15, 2014. The University is currently evaluating the impact, if any, that GASB 68 will have on its financial statements.

The GASB issued Statement No. 69, *Government combinations and Disposals of Government Operations* ("GASB 69"), in January 2013. The objective of this Statement is to establish accounting and financial reporting standards related to government combinations and disposals of government operations. This Statement is effective for fiscal years beginning after December 15, 2013. UAB is currently evaluating the impact, if any, that GASB 69 will have on its financial statements.

The GASB issued Statement No. 70, *Accounting and Financial Reporting for Nonexchange Financial Guarantees* ("GASB 70"), in April 2013. The objective of this Statement is to improve accounting and financial reporting by state and local governments that extend and receive nonexchange financial guarantees. This Statement is effective for fiscal years beginning after June 13, 2013. UAB is currently evaluating the impact, if any, that GASB 70 will have on its financial statements.

The GASB issued Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date – an amendment of GASB Statement No. 68* ("GASB 71"), in November 2013. The objective of this Statement is to address an issue regarding application of the transition provisions of Statement No. 68. The issue relates to amounts associated with contributions, if any, made by a state or local government employer or nonemployer contributing entity to a defined benefit pension plan after the measurement date of the government's beginning net pension liability. The provisions of this Statement should be applied simultaneously with the provisions of Statement No. 68. UAB is currently evaluating the impact, if any, that GASB 71 will have on its financial statements.

The University of Alabama at Birmingham

Required Supplementary Information

September 30, 2013 and 2012

Required Supplementary Information

The following required supplementary information relates to UAB's single-employer other postemployment benefit plan (OPEB).

Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based up the plan as understood by UAB and plan members, and include types of benefits provided at the time of each valuation and the historical cost pattern of sharing of benefit costs between UAB and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

Significant actuarial methods and assumptions used in the valuation were :

- actuarial valuation date, October 1, 2011
- actuarial cost method-projected unit cost method;
- assumed return on investment of 7% per year, based on the estimated return on UAB's assets expected to be used to finance benefits;
- health care cost trend rate 9.5% and 7.8% for the years ended September 30, 2012 and 2011, respectively, reduced by increments to an ultimate rate of 5.0% over years through 2018;
- amortization of the initial unfunded actuarial liability over 30 years on a level percent of pay method with payroll growth rate of 3.25%;

Schedule of Funding Progress

RETIREE HEALTH AND LIFE INSURANCE PLAN							
Actuarial Valuation Date	Actuarial Value of Assets	Actuarial Accrued Liability	(Deficit)	Funded Ratio	Annual Covered Payroll	(Deficit)/Covered Payroll	
October 1, 2012	None	\$ 46,446,404	\$ (46,446,404)	Zero	\$ 967,667,454	-4.8%
