The University of Alabama at Birmingham

List of Publications & Presentations

To be submitted in Scholarly Activity: Part 3 in MEDMap by February 11 of the MS-4 year.

The scholarly project list of publications/presentations should include 1) student's name, 2) mentor's name, 3) project title, 4) abstract summarizing your scholarly project, and 5) a list of any published papers, proceedings, articles, abstracts and/or presentations at local or national meetings based on **all work done during medical school**. *Please note that this is not limited to your scholarly project*. It is understood that students may not have items to list in the bibliography due to the nature of their projects. If you do not have publications or presentations to list, please state "none" under the appropriate heading(s). *When listing your publications, abstracts, and presentations, please follow the citation format used by PubMed (http://www.ncbi.nlm.nih.gov/pubmed/)*. The information you supply will be used to compile a document outlining the scholarly activity projects of your class. *Please submit as a Word Document.*
