Clinical Research Trainings

Clinical Research Support Program (CRSP) Educational offerings provide academic training in the principles essential for success in the clinical research environment. In-person, classroom-based, and online courses relevant to investigators, study coordinators, financial staff, regulatory coordinators, and other research staff are available, with emphases on Good Clinical Practices (GCP), compliance, and other key topics.

Clinical Research Support Program

From study start up through implementation and reporting to close out, our Clinical Research Support Program (CRSP) unit offers flexible, cost-effective services to research teams across the lifecycle of a clinical study. Our goal is to provide a "Best Clinical Practice" environment, facilitating the highest quality clinical research and ensuring rigor and transparency. We offer expertise in NIH, industry, and investigator-initiated trials.

CRSP Services

- Start Up: Feasibility, regulatory requirements, budgeting, contract negotiation
- Implementation: Coordination; recruitment (from screening through consenting, enrollment, and scheduling visits to follow up); monitoring; data collection, entry, QC; specimen collection; helpful tools (sample logs, SOPs, checklists), and IND-IDE, Regulatory support, Coordination (skilled nurse and non-nurse)
- Reporting: ClinicalTrials.gov expertise, FDA and internal audit support
- Training: Our CRSP team comprises certified and highly experienced clinical research nurses, non-nurse coordinators, and regulatory and data personnel who provide guidance via educational workshops, drop-in clinics, and seminars. CRSP staff are also available as consultants or mentors on a per-hour, fee-for-service basis.
