

# ARE YOUR CONTACT LENSES **LESS COMFORTABLE** AT THE END OF THE DAY?

## Clinical Research Opportunity

The UAB Clinical Eye Research Facility is conducting a clinical research study involving an oral supplement that may help alleviate symptoms associated with **contact lens discomfort**.

Subjects will be required to come in for 4 in person visits over 6 months and will be **compensated up to \$140** for completion of the study.

Subjects must be 18 or older and have contact lens discomfort in order to participate.

The study is being conducted by Dr. Kelly Nichols at **UAB School of Optometry Clinical Eye Research Facility** located in Birmingham, Alabama.

For information, or if you are interested in participating in the study, please contact the study coordinator:

**Alexander Kozuch**
